

NYU LANGONE SCHOLAR TO FACULTY PATHWAY PROGRAM

NYU Langone strives to foster an academic culture that's as diverse and inclusive as our city—a place where people from different backgrounds and disciplines can collaborate with one another, achieve educational and career milestones, and discover new and innovative ways to improve healthcare.

We are launching the [Scholar to Faculty Pathway Program](#) as part of NYU Langone's commitment to increasing the number of clinical and basic science researchers from underrepresented minorities at the faculty level. Participants selected for this program will receive culturally relevant mentoring and support, research support funding, and opportunities to connect with a cohort to support their transition from resident to faculty. The goal is that by the end of your program, you will be well positioned to continue on your career path towards being a successful researcher. Upon successful completion of the program, you will be strongly considered for a faculty position at NYU Langone.

BENEFITS OF THE PROGRAM

- *World-Class Facilities*
- *Award-Winning Faculty*
- *Robust Grant Application Assistance*
- *Research Technology*
- *Comprehensive Mentorship*
- *Culturally Relevant Support*
- *Wellness Resources*
