

Scientific Consultant

The Scientific Consultant will assist clients in securing grants from federal and private funding agencies to advance their research & development. The Scientific Consultant will serve as a Project Manager to coordinate all aspects of the proposal preparation process, including interfacing with clients and collaborators, writing research and commercialization plans, and submitting applications to the cognizant agency. As such, a successful candidate will exhibit strong scientific writing and communication skills and display a passion to assist scientists and entrepreneurs in advancing their innovative ideas from concept through research & development and commercialization.

Essential Job Functions:

- Provide strategic guidance to assist scientists and entrepreneurs in understanding the non-dilutive funding landscape.
- Write competitive grant applications in response to solicitations from a broad range of agencies (Department of Defense, National Institutes of Health, National Science Foundation, etc.)
- Serve as a Project Manager to coordinate all aspects of the proposal preparation process, including research plan development, budget preparation, and submission
- Work cooperatively with collaborators in the start-up space, at contract research organizations, in academia, and various other organizations with a focus on scientific development
- Collaborate with team members at EGC to create solutions with measurable value for clients and in support of EGC's central mission to advance science

Core Competencies:

- Excellent verbal and written communication skills
- Outstanding scientific writing skills
- Able to convey information and ideas clearly and concisely
- Proficient at planning, organizing & managing projects
- Adaptable to changing priorities
- Able to perform under tight deadlines
- Open to continuous learning and feedback
- Work well independently and cooperatively with others
- Collaborate effectively with individuals of diverse cultures, interpersonal styles, abilities, and backgrounds

Minimum Qualifications:

- Ph.D. in a scientific (STEM) field
- Postdoctoral or other professional experience (1 yr. required, 2+ yrs. preferred)
- Experience in writing scientific grant applications for federal agencies

To apply, please send cover letter, resume, and 1-page writing sample to careers@evagarland.com

About Eva Garland Consulting (EGC): EGC (www.evagarland.com) is an INC 5000 fastest-growing company, headquartered in Raleigh, NC. The firm specializes in helping clients secure and manage grant funding to advance their scientific innovations. The company has 50+ full-time employees, is located in a desirable North Hills office tower, and provides an award-winning workplace environment. EGC offers a competitive

compensation and benefits package that reflects our commitment to fostering a diverse and supportive workplace.

As part of our effort to provide and maintain a safe and healthful workplace, Eva Garland Consulting requires new hires to be fully vaccinated against COVID-19. Individuals are considered fully vaccinated 2 weeks after their second dose of the Pfizer or Moderna vaccine, or 2 weeks after a single-dose of the Johnson & Johnson vaccine. New hires will be required to provide proof of vaccination. Individuals seeking an exemption from this requirement for medical or religious reasons will be able to request an accommodation form, which will be evaluated consistent with EGC policy and applicable law.
