- Tuesday, March 21
- 2:00 - 3:00 p.m.
- 208 Light Hall

Add to Calendar!

Dr. Susan Eagle is a Professor of Anesthesiology, researcher, and entrepreneur at Vanderbilt University Medical Center. Her practice in cardiothoracic anesthesiology has inspired her to create medical technologies that fill critical gaps in adult and pediatric cardiac surgery.

Dr. Eagle has successfully ushered medical devices from concept to licensing and commercialization via three startup ventures. Dr. Eagle has received awards in clinical medicine, mentorship, and business, including Google Entrepreneurs, SEMDA, and NEXT.
