

Using the Kiosk to login for your microscope session

In our new CISR iLab calendar, you will start your session by logging into a “kiosk” and starting your time. This will unlock the monitor and allow you to login to Windows with your VUNetID and password. Everything from there will be the same. You may login to the kiosk on a workstation or on any mobile device.

1. Each microscope has a workstation nearby to access the internet and the CISR iLab Kiosk website to login and start your imaging session. See list of workstations on next page.
2. Login to iLab.
3. Go to Vanderbilt Cell Imaging Shared Resource (CISR).
4. Click “Schedule Equipment”. ①
5. Click “Go To Kiosk”. ②
6. You should see a list of your scheduled times. ③
7. Click the green “Start”. ④
8. You will now see your time started.

Vanderbilt Cell Imaging Shared Resource (CISR) Core

VANDERBILT UNIVERSITY®

① Schedule Equipment

② Go to Kiosk

Save The Date! Vanderbilt "Day of Light" Symposium. Friday, May 18, 2018. [Registration is free!](#)

The software on the LSM880 Airyscan has been UPDATED. All is well!

The demo copy of Arivis Vision4D for image visualization and analysis has been reactivated and will be available on the Imaris workstation through May 31.

This is a reminder that the CISRSTORE and NCOE_Store servers are for data transfer, not for data archiving. Data older than 45 days will be removed without notice.

- Confocal Microscopy (7)
- Electron Microscopy (3)
- Multi-Photon (1)
- Processing and analysis workstations (7)
- Super Resolution (3)
- Wide-Field (4)
