Student Guide: How to view your grades and feedback

Brightspace allows students to see all of their grades and any feedback left by instructors on particular graded items. Be aware that different Instructors will have different methods of displaying grades. If you are unable to see your grade, you can contact Brightspace Support or ask your Instructor.

There are two places to see your Assignment grades. The simplest way is to click on **Class Progress**. This is where all of your grades will be displayed. You can also visit the **Assignments** tool from your navigation bar.

View Assignment Grades and Feedback in Class Progress

1) Inside your course, locate the **Class Progress** button on the navbar and click it. It will automatically display your **Progress Summary**. Click on **Grades Received** to reveal all grades you have received so far.

View Assignment Grades and Feedback in the Assignment Tool

1) Navigate to your Assignment under the Activities & Assessments tab. If your Instructor has released the grade, you should see your grade here. If you have feedback, there will be a clickable link labelled **View**.

Submission Folder	Score	Submissions	Feedback	Due Date
