

How to Turn off Course Tools You Don't Need

Typically, there is no need to turn off tools in your Brightspace course. In fact, turning off one tool may affect another tool you are using. We recommend customizing your Navigation Bar (NavBar) if you wish to make a tool unavailable to students.

When it is necessary to turn off a tool, follow the steps below.

How to disable specific Course Tools.

1. Click the **Course Admin** tab in the navbar.

2. Click **Tools** under the Administration section.

3. Go through the list and change the status to Off.

Tool Status - BSP.Training.5.16.17 (Sandbox Courses)

Tool Name	Custom NavBar Name	Status
Accelerator	<input type="text"/>	<input type="checkbox"/>
Accommodations	<input type="text"/>	<input type="checkbox"/>
Advanced Data Sets	<input type="text"/>	<input checked="" type="checkbox"/>
Announcements	<input type="text"/>	<input checked="" type="checkbox"/>
