

# Immersion Vanderbilt & School of Medicine Research

## Milestone 1: Immersive Experience Declaration Form

The primary faculty mentor is the Principal Investigator of the lab in which the student is working. Students completing a research experience for course credit should list the class instructor as the secondary faculty mentor.

## Milestone 2: Self-Reflection Form

No change from Milestone 1.

## Milestone 3: Post-Experience Goals and Project Completion Plan

Students can continue working with their School of Medicine research mentor or switch to another faculty adviser for their Culminating Project.

### School of Medicine Culminating Project

Students complete the School of Medicine Mentor/Mentee Compact with their mentor and agree to the requirements listed on the compact to complete Immersion Vanderbilt.

### Course Requirement Culminating Project

Students who use their major requirements (such as capstone projects or Honor's thesis) to satisfy Immersion Vanderbilt will list the person grading their work for credit as their faculty adviser for Immersion.

## Milestone 4: Immersion Vanderbilt Final Culminating Project Submission

Students submit their Final Culminating Project to their Immersion Vanderbilt faculty adviser for approval.
