

# Dismount Zones

Bicycles and other personal mobility devices are a great way to get to and travel across campus.

As you ride, remember that pedestrians have priority on paths and sidewalks. Slow and yield to pedestrians in these settings.

Due to high pedestrian traffic at the 21st Ave Pedestrian Bridge, the Rand Wall, the Medical Center Plaza, and the sidewalk in front of the Campus Bookstore, these areas are designated as mandatory dismount zones.

Dismount and walk in these areas.
