

OneVU Yubikey Onboarding

Navigate to <https://onevu.vanderbilt.edu> in your browser.

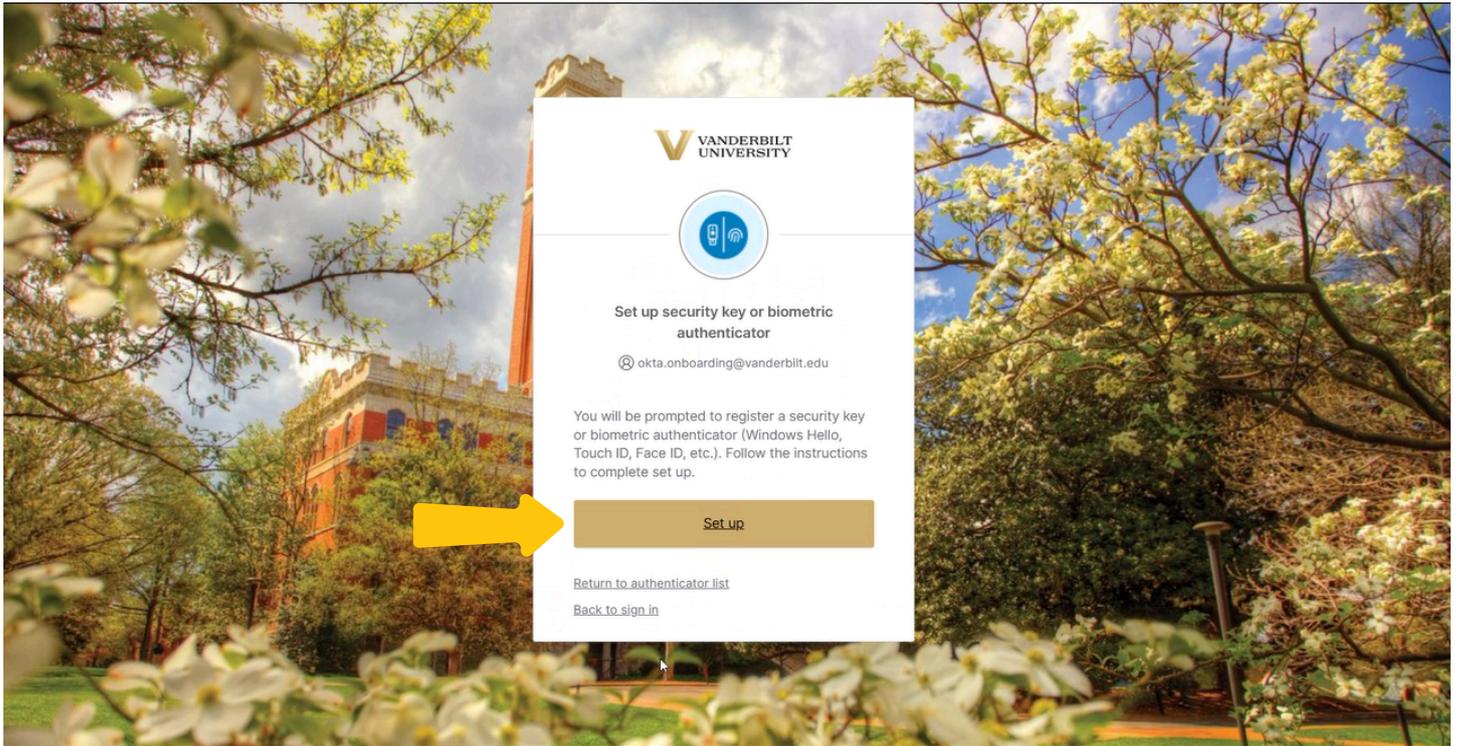

Login using your @vanderbilt.edu email and click Next. Then enter your password and click verify. **Note:** *This password is the same one you use with your VUnetID.*

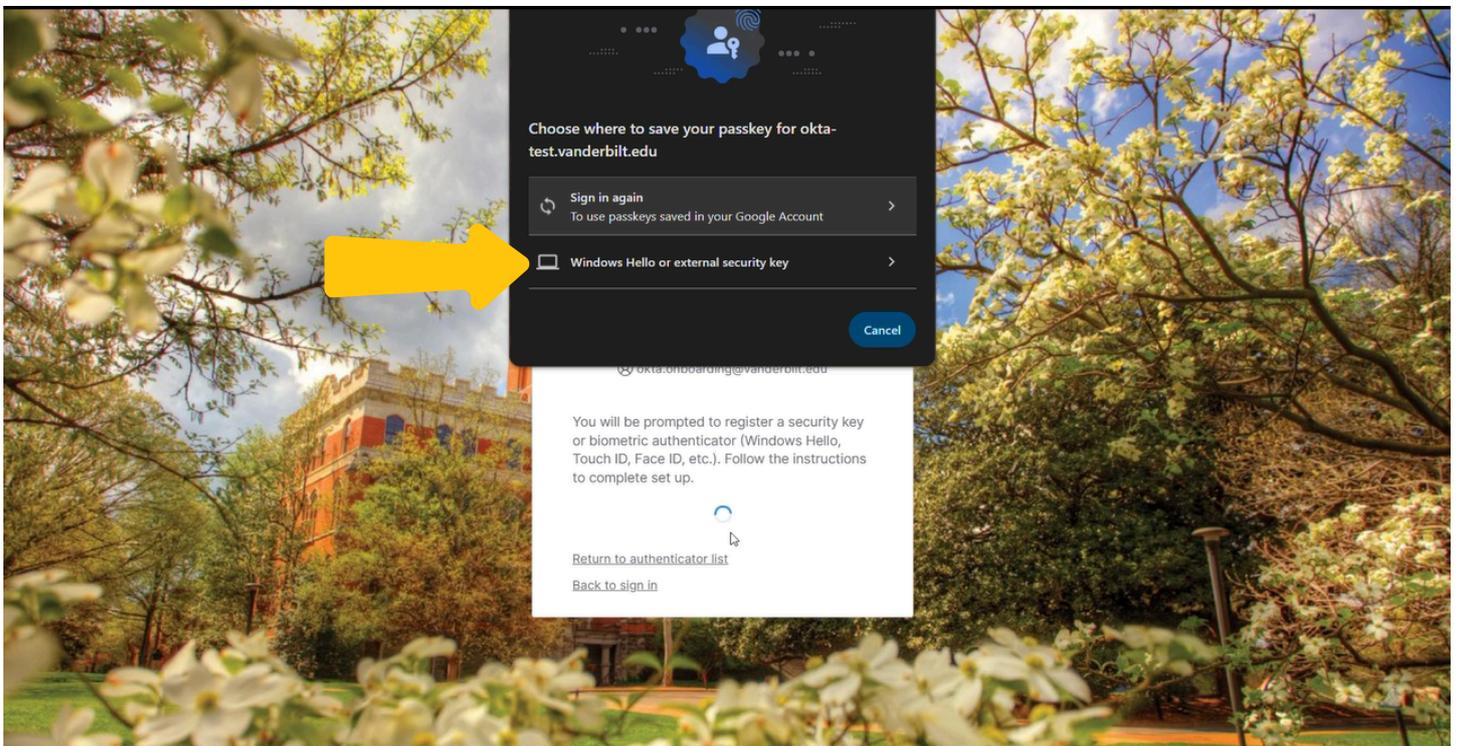

Once you enter your password, you will see the prompts below, and you will want to select, "Security Key or Biometric Authenticator."

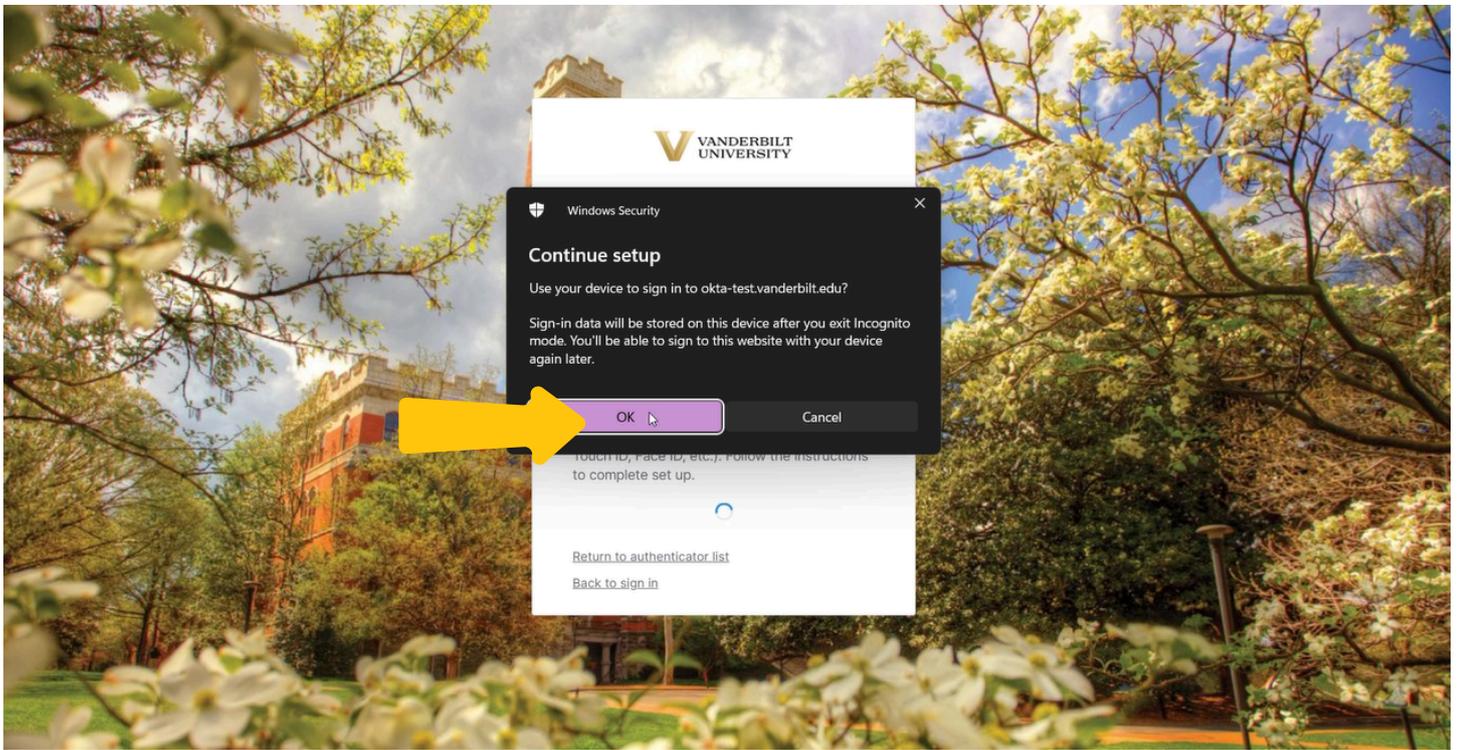

Then click "set up" again.

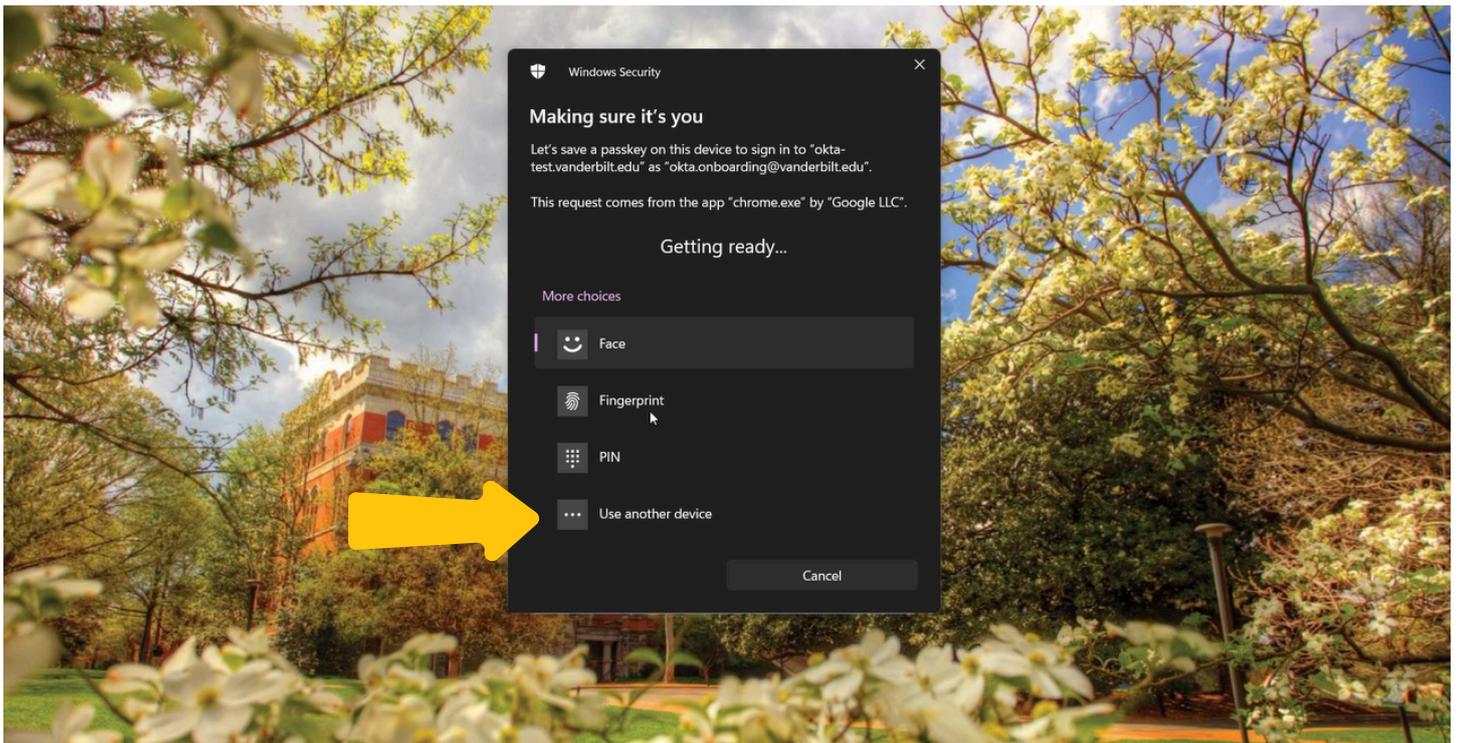

Depending on your device, you may be asked to use a pin or passkey, but you will want to select the option that says external security key.

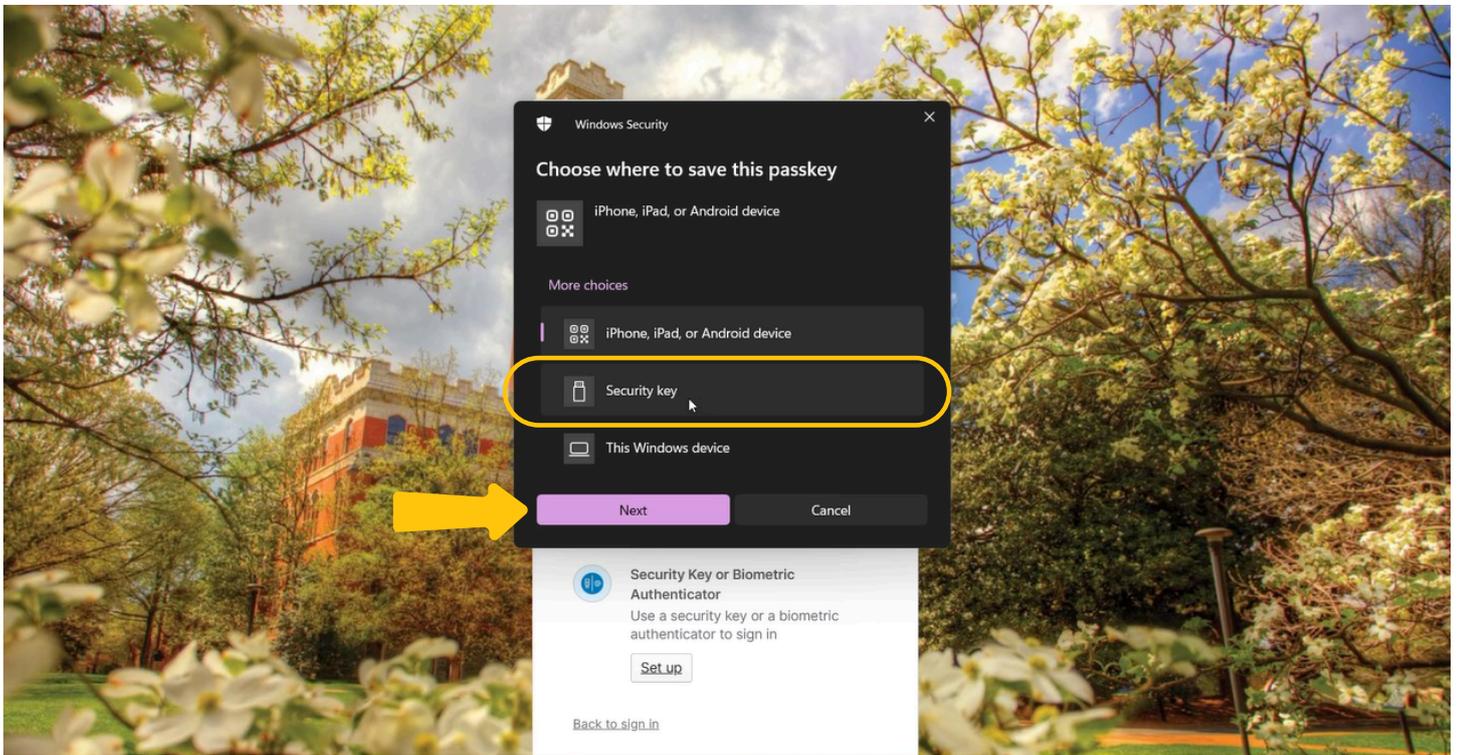

Select "ok".

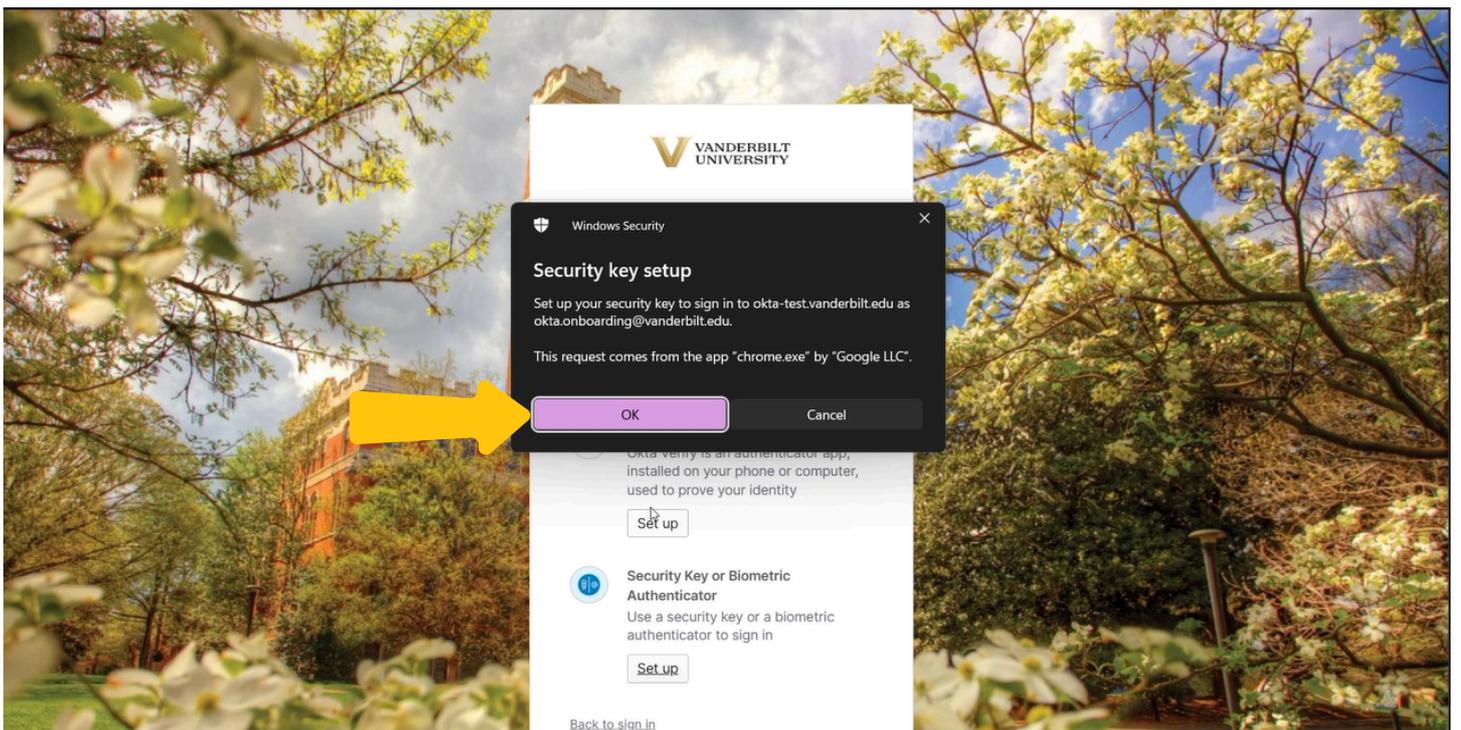

Then you can click ok, and if security key isnt listed at first, select "use another device".

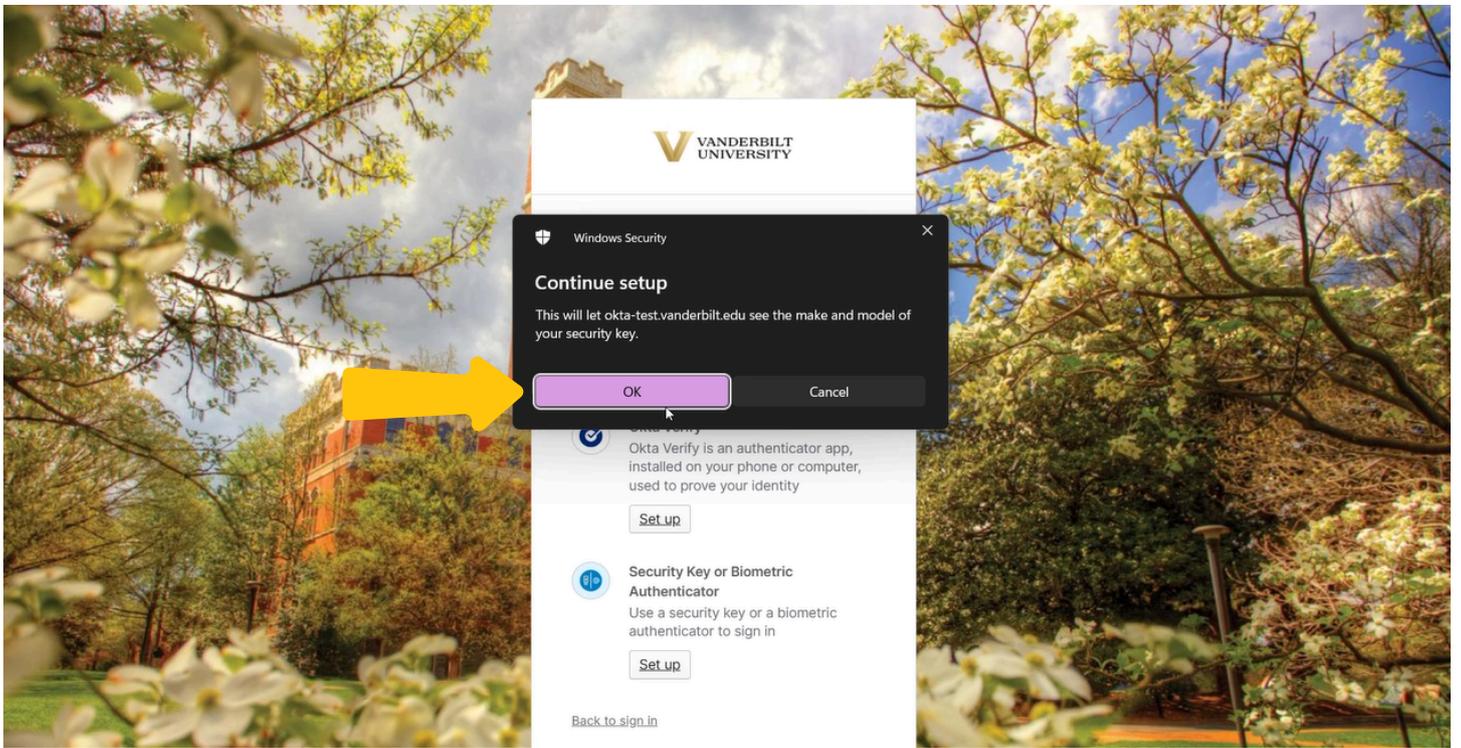

Select "Security key" and click Next.

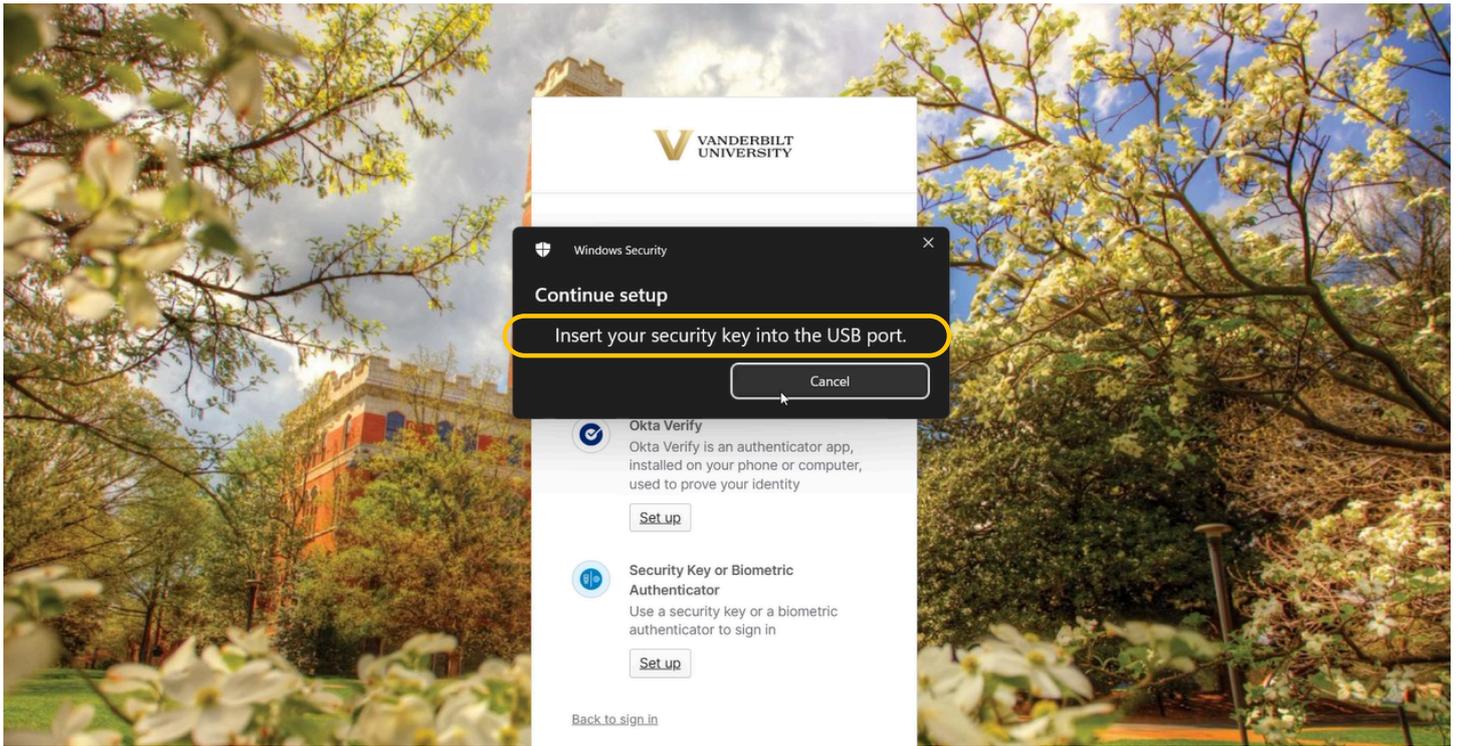

Select "ok".

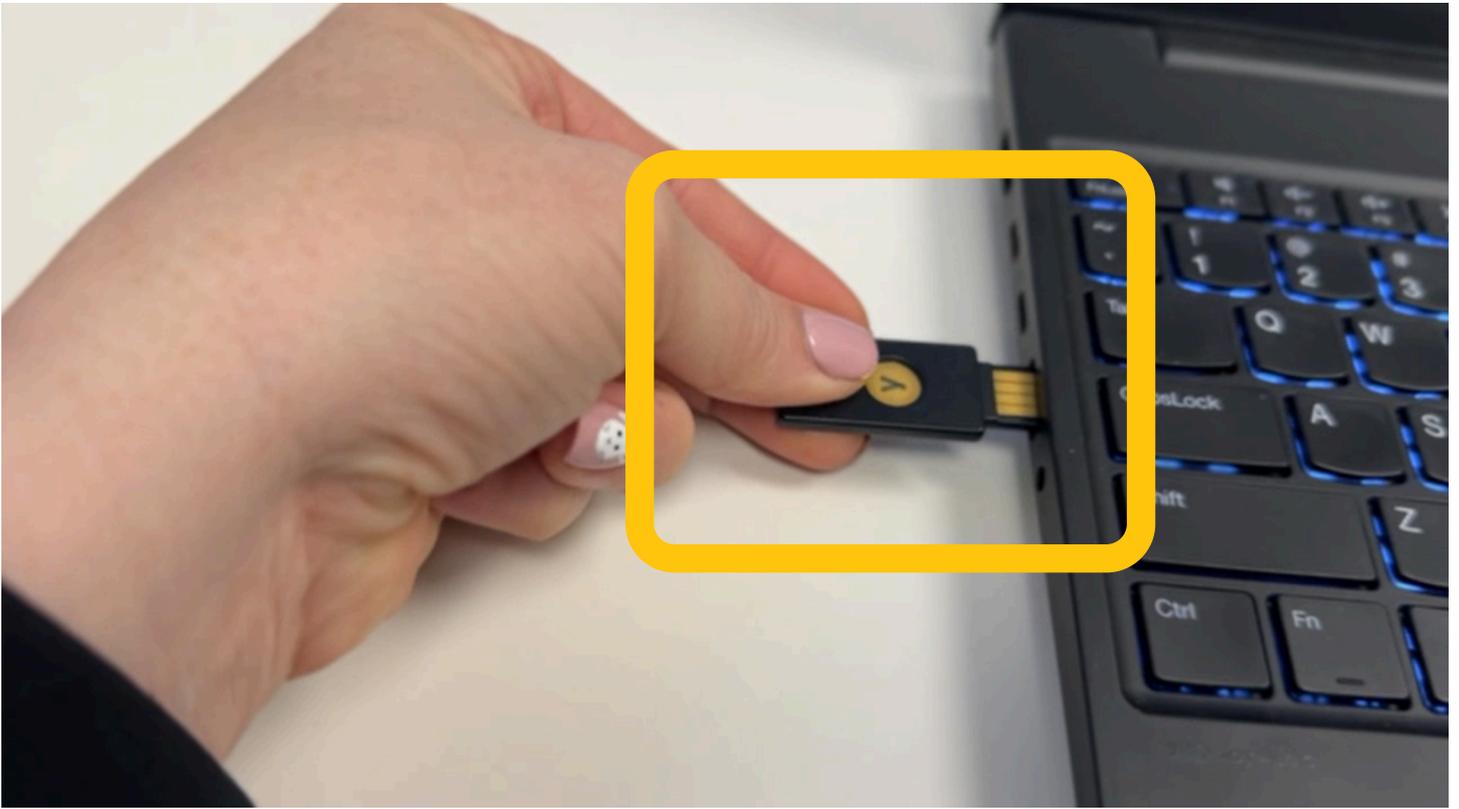

Select "ok", again.

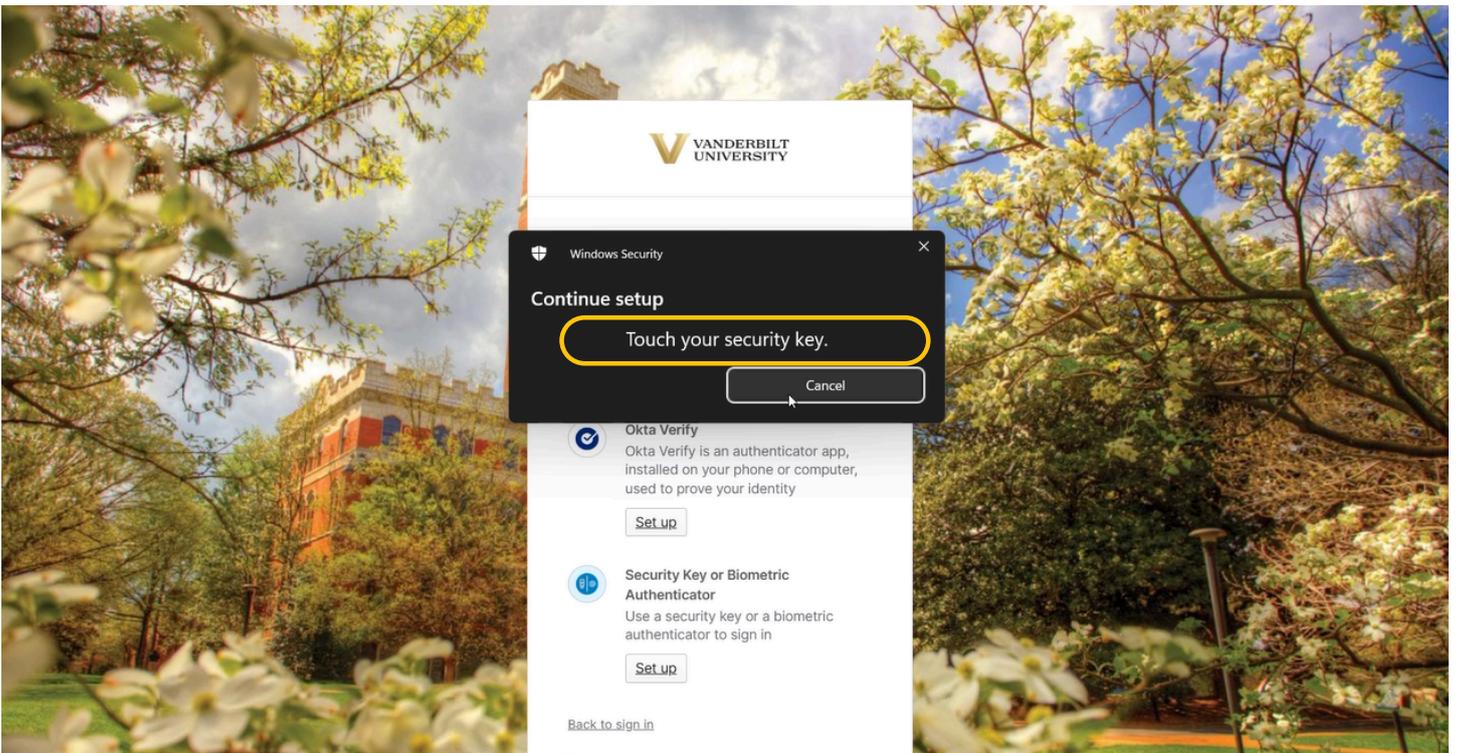

Now your device will prompt you to insert your yubikey.

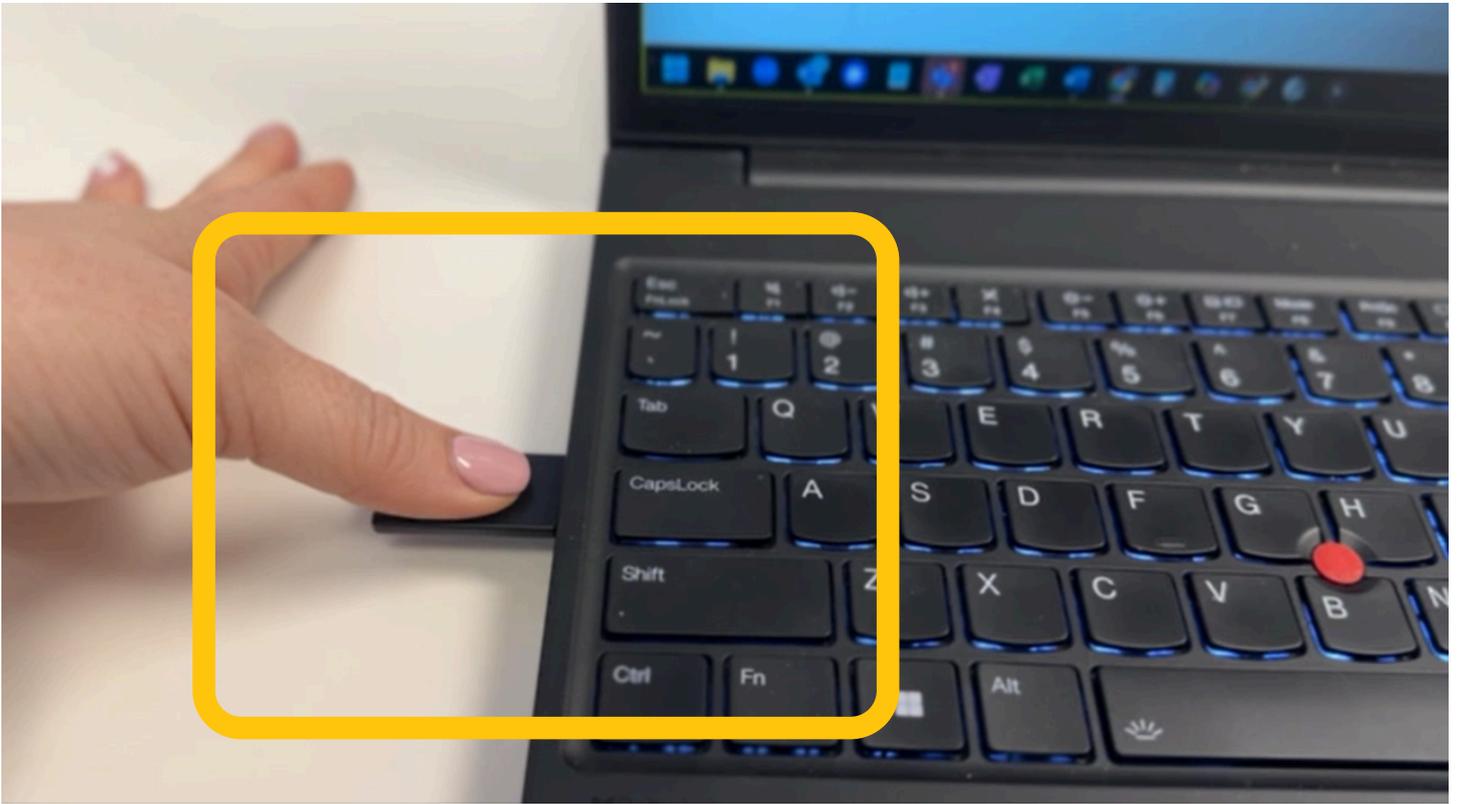

Insert the yubikey into your device.

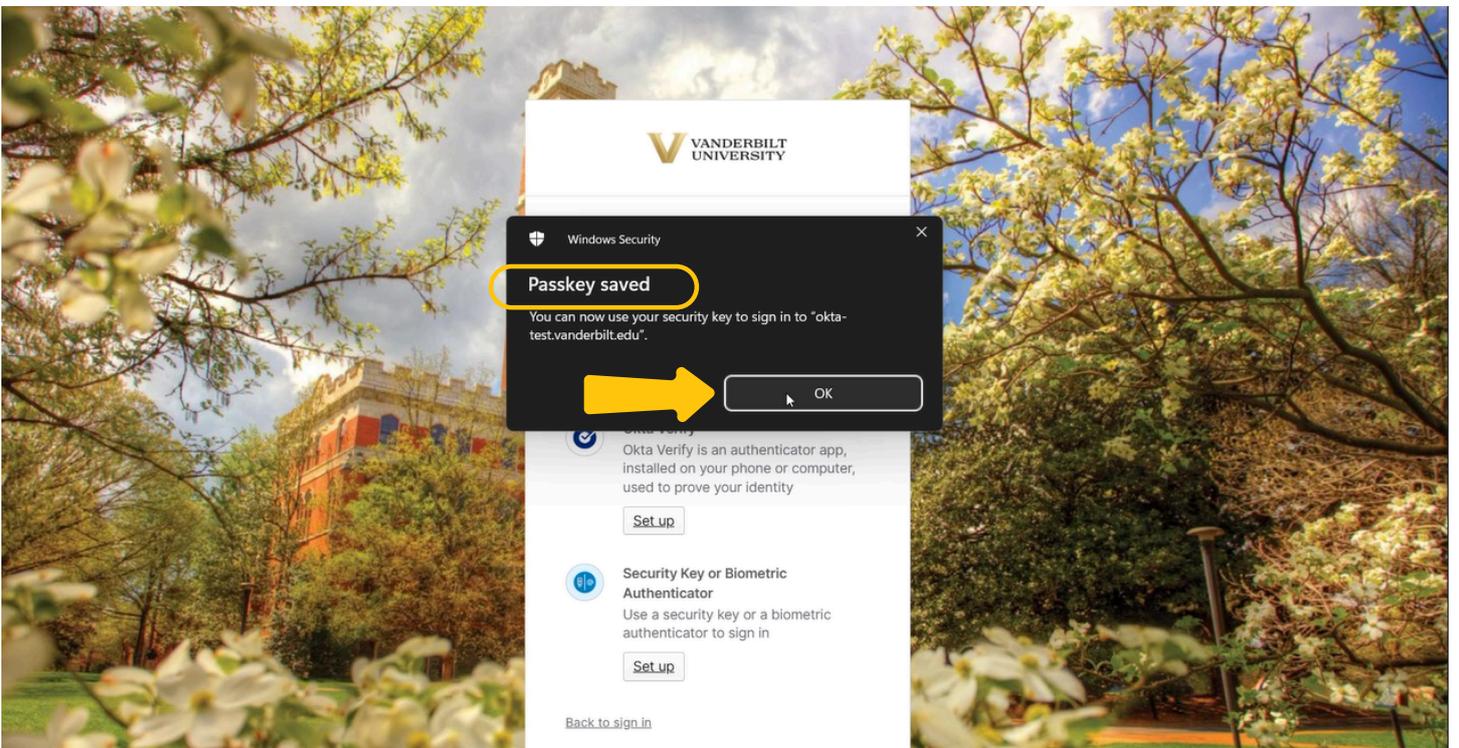

Once your device detects the yubikey it will ask you to touch the key with your thumbprint.

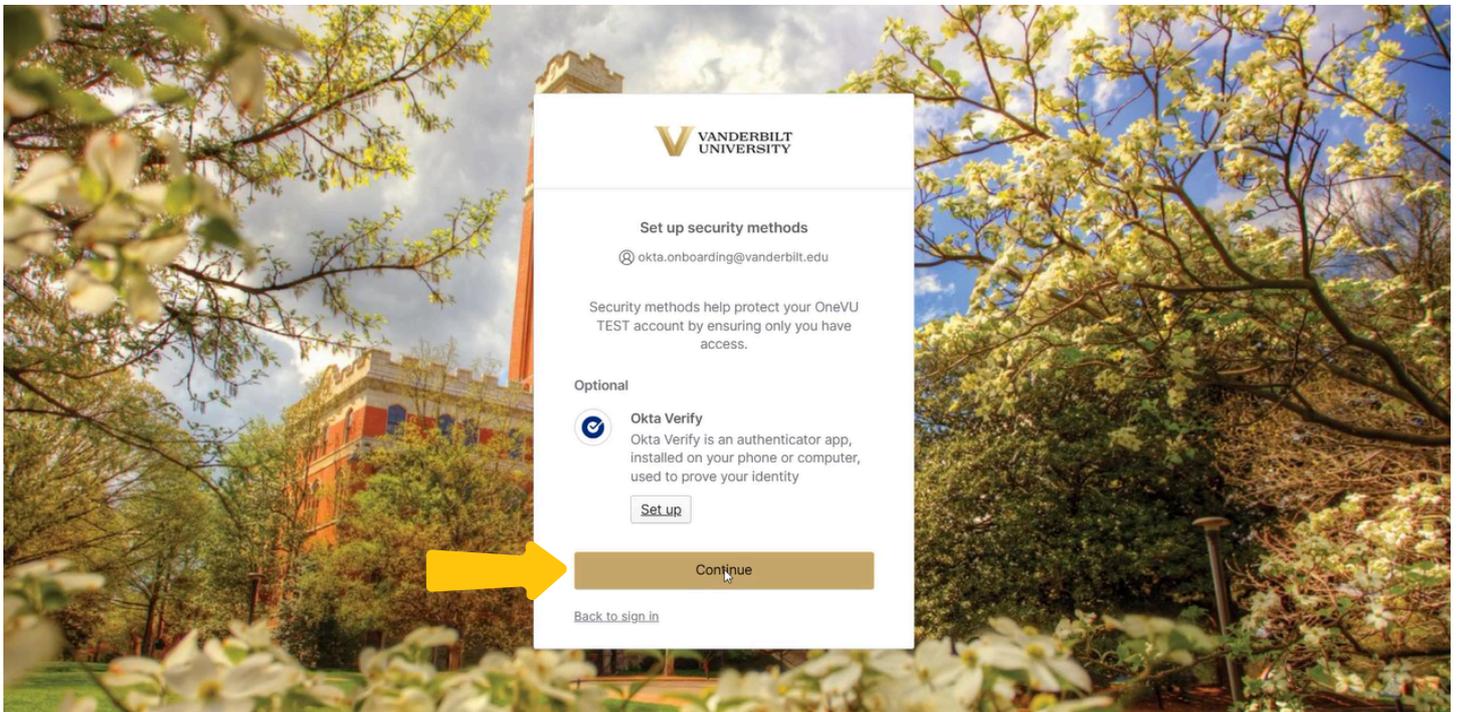

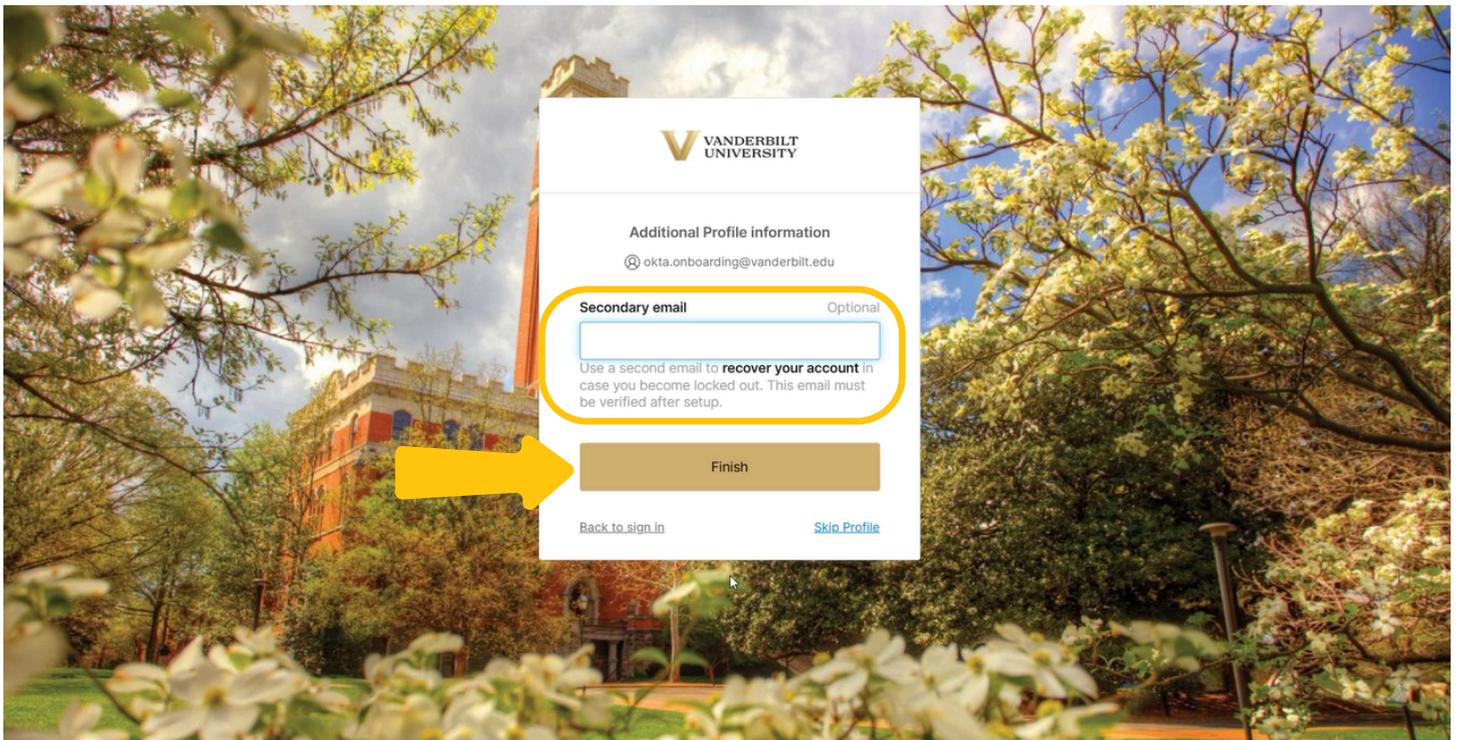

Once the process for the yubikey is complete you will see the below message that the passkey has been saved and you can click “ok”.

Click “Continue”.

Now enter a secondary personal email address as a recovery option for your account. Please note that this process won't be complete until you go to your personal email inbox and confirm via the link in the email that is sent. Then you can click, "Finish".

You are now in your OneVU dashboard and your account onboarding is complete.
