

The Mayor's Green Ribbon Committee is holding a series of public meetings to take input on "Making Nashville Green". Anyone is welcome to attend. I have included a list of the meeting days/times/locations below. The first one is Tuesday, November 11.

Also, the Summit for a Sustainable Tennessee is coming up next week November 13-15 at Lipscomb University. Registration for all three days is \$150, students can attend for \$25 per day.

If you are planning to come support your Commodores this Saturday against Florida (GO 'DORES!), be sure to check out the first "Eco-Friendly Tailgating" being hosted by Carmichael Towers and SPEAR. It will be in the student section of the Vandyville Tailgate behind the stadium from 4-6:30pm. Also, Vandy Athletics, SustainVU, and Plant Ops have partnered to ensure there will be recycling available in Vandyville and throughout the stadium during this game. "It is Good to be Gold....It is Great to be Green"!

Links to the Summit conference as well as the schedule of the public meetings will be available on the SustainVU website, www.vanderbilt.edu/SustainVU. Also, remember to check out the new ThinkOne section for energy conservation info and tips!!

Thanks!

Andrea George
Director, Sustainability and Environmental Management Office
Vanderbilt University
