

How do I customize a group page?

The use of groups in Blackboard allows instructors to implement student group activities, collaboration, and assignments. Once a group has been created the instructor can customize the group page (the page that group members will see). Specifically, the instructor can re-arrange the order of the group modules, add/remove group modules, or add/remove a course module. Modules are items that include content, links, or tools that can be added to personalize a page.

1. From the course's homepage, click **Groups** from the navigation menu.

2. On the next page, click on the **group name** that you wish to customize.

<input type="checkbox"/>	Assignment groups 1	Assignment groups	1	No	Yes
<input type="checkbox"/>	Assignment groups 2	Assignment groups	0	No	Yes
<input type="checkbox"/>	Assignment groups 3	This is a table showing the attributes of a collection of items.		No	Yes
<input type="checkbox"/>	Bay 1	Random enroll test	4	No	Yes
<input type="checkbox"/>	Demo Group	-	3	No	Yes
<input type="checkbox"/>	Instructional Design Group 10/21/15	-	11	No	Yes

3a. To **re-arrange** the position of a module, move your mouse to the top-left corner of the module, **click, hold, and drag** the module either up or down on the page. Then **release** your mouse button at the desired location.

3b. To **remove** a module, move your mouse to the top-right of the module and click the **X**.

3c. To add a group module, click the **Add Group Module** button. To add a course module, click the **Add Course Module** button. Modules are items that include content, links, or tools that can be added to personalize a page.
