TUESDAY &
THURSDAY 9:30AM

Delve into sustainability through an integrated blend of classroom instruction and a 10-day immersive experience during spring break in Northern France and Brussels, Belgium. In collaboration with Université du Littoral, engage with sustainability experts and explore groundbreaking green initiatives in cities such as Paris, Dunkirk, and Boulogne-Sur-Mer. This course integrates theory, hands-on fieldwork, and professional networking, equipping students for leadership roles in global sustainability.
