BIBLIOGRAPHY OF RALPH McKENZIE (updated December, 2018)

[87] (with P. M. Idziak) Varieties with polynomially many models, Fundamenta Mathematicae 170 (2001), 53–68.

[92] (with M. Maroti) Finite basis problems and results for quasivarieties, Studia Logica 78 (2004), 293–320.

[106] (with P. Idziak, P. Markovic, M. Valeriote, R. Willard) *Tractability and learnability arising from algebras with few subpowers*, SIAM J. Comp. 39 no. 7 (2010), 3023–30

(with M. Smedberg) *Strong solvability and residual finiteness for finitely decidable varieties*, (submitted to Fundamenta Mathematicae, Mycielski editor).

(with M. Moore) *Colorings of free algebras, splittings in the lattices of interpretability*, (in progress).
