

## 2013 Vanderbilt Football Sustainability Competition

Are YOU the greenest group on campus? You could win a catered VIP tailgate, tickets for 25 people, a signed premium item, and on-field recognition at the Vanderbilt vs. Kentucky football game on November 16, 2013! Finalists will be notified around October 9 and will be asked to send two representatives to participate in a pre-game recycling competition which will determine the final winner! This event will be held in Vandyville prior to the start of the Georgia game on October 19.

Please fill out the checklist below to tell us about the sustainable actions your department, organization or group regularly do in order to make Vanderbilt a greener campus. Applications are due by **Friday, September 27**, and can be emailed to [sustainvu@vanderbilt.edu](mailto:sustainvu@vanderbilt.edu), faxed to 615.343.0023, or you can fill out an online version through Survey Monkey at <https://www.surveymonkey.com/s/2013VUFballCompetition>.

**\*Please fill out and return BOTH pages of the checklist in order to qualify for the grand prize!\***

### Reduce, Reuse, Recycle

- Use paper, plastic and aluminum recycling bins?
- Recycle cardboard? For student groups, do you utilize the cardboard and packaging materials recycling in the campus post office?
- Recycle ink and toner cartridges, batteries, and/or cell phones?
- Communicate electronically and print only when needed?
- Share and edit documents electronically (i.e. Google docs, Sharepoint, shared drives, using track changes, etc.)?
- Always print double-sided?
- Use reusable mugs and cups instead of using disposable bottles?
- Buy paper products with at least 30% recycled content? If this question is not applicable for your group, please check the box.
- Purchase recycled or remanufactured laser toner and ink jet cartridges and green office supplies? If this question is not applicable for your group, please check the box.

### Energy and Water Savings

- Take the stairs instead of using an elevator?
- Turn off the lights when everyone leaves a room, including common areas (i.e.: kitchens, bathrooms, etc.)?
- Use daylight instead of turning on lights, whenever possible?

- Program computer, fax/copy machines, and printers to their energy-saving settings including “sleep mode”?
- Whenever possible, unplug electronics and equipment from the wall when not in use?
- If you can control your thermostat, set thermostat on at least 75 degrees F in the summer and 68 degrees F or lower in the winter?
- Turn off the water when it is not in use?
- Report hot or cold spot, water leaks, broken toilets, and dripping faucets?

### **Transportation**

- Walk or bike to or on campus? This includes going to and from campus, lunch, class, or meetings on campus.
- Take public transportation including the MTA “Ride to Work Program”, the Music City Star Commuter Train, cabs, Vandy Vans OR carpool/vanpool?

### **Innovative Actions**

Use the space below, and extra pages if needed, to describe how your department, organization or group is going above and beyond to make Vanderbilt’s campus more sustainable. What do you do that’s different, cool, unique, and that we could share with other’s to improve Vandy’s sustainability?
