Ongoing Cases and Projects

- Stipends across campus
 - Congrats to those in College of Arts and Sciences
 - Still working on stipends in the School of Engineering
- Clarification of dismissal protocols
 - Committee is forming recommendations for administration now
- Survey Analysis – ongoing

Volunteers for Future Cases?

- As cases come in I ask for volunteers to chair a case, they take the case through the process above with assistance as necessary
- You may form a temporary committee of your own for assistance
- You can choose to volunteer when your schedule allows
- You can bring your own case to GSC and we can train you how to take it through this process and provide needed resources

- **Add your name to the contact list!**

Graduate Student Housing Focus Group

- Looking for 2nd and 3rd year students
- Looking for representation from a wide range of backgrounds and living situations, for example:
 - International students
 - Married students
 - Students with children
- Committee will likely meet once at the end of October

Anyone interested?

Student Health Insurance

- Vanderbilt has formed a working group to discuss student health insurance for future years – *Ashleigh Hope is grad student rep!*
- Now is an ideal time to effect change in this area

Are there things you appreciate about student health insurance that you would like to see continued?

Are there things that you would like to see added or changed?
