'New Faculty Development' workshops/panels
Vanderbilt University School of Engineering
AY 2022-23

With the many new faculty that have joined VUSE over the past two years, the School of Engineering is organizing a series of 'New Faculty Development' workshops/seminars/panels on topics that are relevant to our new colleagues. Most of these events will take place every first Monday of the month from **4-5 pm** (with exception of the one in October and the one in January). The topics and panelists (tentatively) are shown below. Please attend any or all that you think may be useful and/or of interest. All of these will take place in **FGH 306**, except the October 17 session which will be in **FGH 298**
