

# **COMPUTER SCIENCE BS/MS APPLICATION FORM**

## **Program Information:**

Students who enter Vanderbilt with a significant number of credits, earned either through Advanced Placement tests or in college courses taken during high school, may be eligible for the Accelerated Graduate Program in Engineering. Through this program, a student is able to earn both a bachelor's degree and a master of science in about the same time required for the bachelor's degree or slightly longer.

To be eligible for the program, a student must:

- Complete 86 hours (senior standing) by the end of the sophomore year
- Have at least a 3.5 GPA
- Submit a one-page statement regarding your interest in the program and your plans for completing it

Upon admission to this program, a second "career" will be set up for the student which will allow the student to start taking graduate courses (course numbers >5000) during their junior and senior years. These courses will be credited toward the master of science. Graduate courses cannot double count – they cannot count for both the graduate and undergraduate career.

## **Application Deadline:**

The Fall term deadline for admission to this program is April 1.

The Spring term deadline for admission to this program is October 1.

## **STUDENT SECTION**

### **Student Information**

Commodore ID:

First Name:

Last Name:

I am interested in Thesis track

I am interested in Non-Thesis track

### **Advisor Information**

First Name:

Last Name:

### **Student Acknowledgement and Affirmation**

With my signature, I attest I have met the requirements for admission to this program.
