The Summary of Benefits and Coverage (SBC) document will help you choose a health plan. The SBC shows you how you and the plan would share the cost for covered health care services. NOTE: Information about the cost of this plan (called the premium) will be provided separately.

Important Questions	Answers	Why This Matters:
What is the overall deductible?	$2,200 individual or $4,400 family In-Network; $3,600 individual or $7,200 family for Out-of-Network	Generally, you must pay all of the costs from providers and prescriptions up to the deductible amount before this plan begins to pay. For those enrolled in family tiers, before coinsurance can begin, the total family deductible must be met by one or more family members. There are separate deductibles for each network.
Are there services covered before you meet your deductible?	Yes. Preventive care services are covered before you meet your deductible.	This plan covers some items and services even if you haven't yet met the deductible amount, but coinsurance may apply. For example, this plan covers certain preventive services without cost-sharing and before you meet your deductible. See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits/.
Are there other deductibles for specific services?	No other specific deductible.	
What is the out-of-pocket limit for this plan?	For in-network providers, combined $5,000 individual/$10,000 family; for out-of-network providers $8,000 individual / $15,000 family	The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan, they have to meet their own out-of-pocket limits until the overall family out-of-pocket limit has been met.
What is not included in the out-of-pocket limit?	Premiums, balance-billing charges, and health care this plan doesn't cover.	Even though you pay for these expenses, they don't count towards the out-of-pocket limit.
Will you pay less if you use a network provider?	Yes, for a list of preferred in-network providers visit Aetna's Provider Search Webpage or call 1-800-743-0910.	This plan uses a provider network. You will pay less if you use a provider in the plan's network. You will pay the most if you use an out-of-network provider, and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing). Be aware, your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services. See the chart starting on page 2 for how this plan pays different kinds of providers.
Do you need a referral to see a specialist?	No. You don't need a referral to see a specialist.	You can see the specialist you choose without permission from this plan.

All **copayment** and **coinsurance** costs shown in this chart are after your **deductible** has been met, if a **deductible** applies.
