**BRANDY LOCCHETTA, M.ED.**

**HERE'S THE STORY OF A  
LOVELY RESEARCHER...  
BRANDY!**

# THE BARTON BUNCH

## BRANDY LOCCHETTA, M.ED.

Meet Brandy, a 2nd year  
doctoral student!

She is from Atlanta, Georgia.

Peanut butter is her  
favorite food.

She loves children's books and  
has an impressive collection!

As a child, she always asked  
for educational toys- she has  
always loved learning!

## BRANDY LOCCHETTA, M.ED.

A few of her many research interests include...

Inclusion of children with disabilities alongside their typically developing peers, social-emotional development of young children with and without disabilities, interventions for young children with challenging behaviors, and indigenous implementation of interventions within natural environments.

What have you been researching in Barton Lab?

"I've been most involved with FBSApp and I've enjoyed learning about the history of the app and all that we've learned. I'm also excited to continue the research and refine what we know and how the app can be most useful to and effective for families, professionals, and young children with challenging behavior."

## BRANDY LOCCHETTA, M.ED.

What do you hope to do after you graduate from Vanderbilt?

I hope that I get to continue to do all the things I love - teach, research, advocate, and influence education policies/systems. I'm not sure what the "perfect role" is, but any combination of these things would make me happy!
