Benefits of Breathing Exercises

GOAL OF DEEP BREATHING: RELAXATION

Consistent use of breathing exercises
have been shown to:

- Lower heart rate
- Lower blood pressure
- Slows rate of breathing to expend less energy
- Relieve pain

- Improves coping with stress
- Improves cardiovascular capacity
- Increase relaxation
- Increases energy

The Importance of Self-Care

The Barton Lab emphasizes the importance of self-care. Our lab is committed to engaging in self-care because of its impact on our individual and collective well-being.

We also know that self-care looks different for every individual. Your self-care needs might change depending on what else is happening in your life. We encourage you to find the ways to take care of yourself that work for you. Please share with us the ways you engage in self-care!
