A. Course Title: Human Development, Professional Issues 2

B. Personal Statement (Brief statement of expertise and/or skill set that you offer for students taking the course(s) you are responsible for teaching):

Previous to a career in genetic counseling, I was a secondary science educator teaching numerous science subjects to learners of all levels. I was a 2003 Teach For America Corp member where I receive cutting edge training in teaching, pedagogy, curriculum design and learning outcomes. During my summers as an educator, I participated in educational research, designing STEM curriculum for inner city K-12 schools through both Northwestern University and University of Illinois-Chicago. In my current role as a faculty member and genetic counselor at Vanderbilt, I teach a variety of learners ranging from genetic counseling graduate students, residents, medical students, graduate and PhD candidates, colleagues and staff. I currently direct the medical genetics module of Human Genetics 1 course offered through the Vanderbilt Genetics Institute that is attending by graduate and PhD students of various disciplines as well as molecular pathology fellows.
