ANNOUNCEMENTS

BRET Office of Career Development ASPIRE Program Module
in Partnership with Nashville Software School

Sept 2019-April 2020

DATA SCIENCE ESSENTIALS

Intro to Data Science / Communication & Networking / Case Sessions

In the 2019-20 academic year, the BRET Office of Career Development is again offering the ASPIRE module, [Data Science Essentials](#), for PhD students and postdoctoral fellows from biomedical sciences who are interested in:

1. learning what data science careers entail;
2. acquiring introductory technical competencies to break into the field of data science;
3. honing their communication skills, both to articulate their PhD-level strengths to employers and to convey technical information to non-technical audiences;
4. meeting data science professionals from a range of industries.

Twelve trainees will be selected to participate in this program, which is a partnership with the Nashville Software School. The deadline to apply is Friday, July 26. Learn more [here](#).

The ASPIRE Program is partnering with Amgen, Cambridge, MA, to send two senior graduate students or postdoctoral fellows to this annual event:

[From Academia to Industry: An Amgen Perspective \(Amgen Postdoc Day\)](#)

on Wednesday, September 18. Coordinated by the BRET Office of Career Development, this program is designed for senior graduate students and postdoctoral researchers who are evaluating the next steps in their career and would benefit from spending a day at Amgen to learn about innovation, drug discovery, and drug development in an industry setting. Learn more and apply by Tuesday, July 30.

Interested in volunteering with the BRET Office of Career Development ASPIRE Program as a event moderator or on the symposium planning committee? [Let Kate Stuart know!](#) Volunteer meetings will be in July.

This [Discovery Diagnosis Online Course](#) is currently seeking Vanderbilt grad students to participate in the pilot course. Learn more and registration details [here](#).
