Thursday, May 13

11:00am

[Zoom registration required.](#)

ASPIRE Job Search Series for PhD Students and Postdocs: Resumes/Industry CVs

Featuring Kim Petrie, PhD, Assistant Dean for Biomedical Career Development

Thursday, May 20

11:00am

[Zoom registration required.](#)

ANNOUNCEMENTS

The **Vanderbilt Summer Science Academy (VSSA)** is looking for graduate students and post-docs to help judge posters for the VSSA 18th Annual Student Research Symposium at the end of the summer. The symposium will be held on August 5 via gather.town.

The Graduate Women in Science Nashville Chapter is hosting the **2021 Women's Health Research Symposium** in May to celebrate Women's Health Month. They have an exciting lineup of speakers that will feature innovative gynecology, pregnancy, and reproductive aging research.

Join the webinar “**Demystifying Mental Health Support: a webinar for STEM graduate students**” on May 12. This is the second in a series on graduate student mental health and it will briefly outline common mental health challenges for STEM (science, technology,

engineering, mathematics and medicine) graduate students, and focus on strategies for managing mental health, including seeking professional help.

On May 19, [Genome Startup Day](#) will explore some of the diverse roles that exist in startups and provide opportunities for students and those curious about their career paths to interact and learn from professionals who are leaders but are not founders or CEOs.

Interested in consulting? Check out [Bain & Co.](#) for full time and summer associate opportunities. Advanced degree holders (JDs, MDs, and PhDs) bring unique and valuable perspectives to the casework. Your expertise, eagerness to learn, and problem-solving abilities will drive change for clients from day one.

The [Curriculum Fellows Program at Harvard Medical School \(HMS\)](#) is still accepting applications for their 2021 cohort of postdoctoral curriculum fellows. Curriculum Fellows work with HMS faculty and the administration to develop, deploy, and evaluate evidence-based graduate biomedical education and training.
