VIRTUAL OFFERINGS OF THE FORTNIGHT

[CV/Resume Drop-in Clinic](#) and [Individual Appointments](#) have moved online!

Click the links above for more details.

[ASPIRE Job Search Series: Cover Letters](#) ... virtual session!

Featuring Kate Stuart, Assistant Director, ASPIRE Program

****Although this event has previously been a drop-in event, please note that since they are now virtual, we are requesting a registration so we may provide you a Zoom log-in.***

Wednesday, April 15 • 2:00pm • [Please register to get Zoom log-in details.](#)

ANNOUNCEMENTS

Scholars who come to the U.S. to conduct postdoctoral training often seek help from the ASPIRE Program to find funding for their research. International postdocs are not eligible to apply for NIH F32 NRSA postdoctoral fellowships or NSF postdoctoral fellowships, two major sources of funding for US citizens and permanent residents. Thus, we have compiled the strategies ([linked here](#)) to help

international scholars identify funding opportunities to support their training.

The ASPIRE Team is still here... virtually of course! If you need a CV/Resume review or an individual appointment, the ASPIRE team is here for you. [Complete this form](#) and someone will be in touch very shortly.

Also, there is an [ASPIRE Internship](#) currently open. See the Internship Corner below to learn more!

[Code for Nashville \(CFN\)](#) will be having a virtual meetup on April 27. Learn more about CFN and other opportunities through this local company.

[CDC's Laboratory Leadership Service \(LLS\) Fellowship Program](#) prepares high caliber PhD scientists to become public health laboratory leaders. Through on-the-job service at CDC and other public health laboratories, fellows acquire and apply skills in laboratory quality management, the science of biosafety, and leadership. Learn more [here](#).

Interested in a research career in government? The National Academies of Sciences, Engineering, and Medicine sponsors awards for postdoctoral and senior researchers at [participating federal laboratories and affiliated institutions](#). These awards provide the opportunity for recipients to do independent research in some of the best-equipped and staffed laboratories in the U.S. Research opportunities are open to U.S. citizens, permanent residents, and for some of the laboratories, foreign nationals. Learn more [here](#).

The Giovanni Armenise – Harvard Foundation supports basic scientific research at Harvard Medical School and in Italy with several different programs. In particular, the [Career Development Award \("CDA"\)](#) is designed to foster young, newly independent researchers, making it possible for them to join and enhance the Italian scientific community, and to strengthen and develop collaborative relationships between Italian scientists and those at Harvard Medical School (HMS) in Boston.

[Insight Fellows](#) has made the decision to run their summer programs remotely, in both the U.S. and Canada. Learn more in [our post](#).
