SPECIAL ANNOUNCEMENT

We are excited to announce this very special opportunity, a new initiative: [**ASPIRE to Innovate Postdoctoral Fellowship Program**](#). This program has two primary objectives: 1) To enable the commercialization of technologies discovered at Vanderbilt University and 2) To provide a biomedical PhD scientist with a structured

training opportunity to learn how to transform a technology into a company. This pilot initiative will hire a biomedical sciences postdoc to launch a successful start-up leveraging intellectual property of Vanderbilt University. Fellows will work full-time to develop a commercialization strategy on a particular technology while immersing themselves in the local bioscience entrepreneurial ecosystem. [Check out our website](#) to learn about eligibility requirements and how to apply. Questions? Contact Ashley Brady, ashley.brady@vanderbilt.edu. **Deadline to apply is noon, Monday, March 15, 2021**
