SPECIAL ANNOUNCEMENT

2018 Federal STEM Policy & Advocacy:

An Inside the Beltway Look

This two-day event will provide Vanderbilt students and postdoctoral fellows in Science, Technology, Engineering, and Mathematics (STEM) an opportunity to learn how federal STEM policy is

made and the role of advocacy by various stakeholders in achieving policy goals. Participants will hear from officials – including some VU alumni – who work in the Executive and Legislative branches of government as well as scientific societies, associations and coalitions who are actively engaged in influencing and promoting federal investments in science and engineering. Hosted by the Vanderbilt University Office of Federal Relations in partnership with The Vanderbilt Graduate School, the BRET Office of Career Development, the School of Engineering, and the Center for Student Professional Development. Deadline: August 21.

ANNOUNCEMENTS

What does the BRET Office of Career Development ASPIRE Program even do? Look back on our past year's accomplishments in the [2017-2018 Annual Report](#).

The **Fogarty Global Health Program for Fellows and Scholars** is now accepting fellowship applications. This unique program is sponsored by a consortia of schools in which Vanderbilt is one.

Interested in a teaching career? The Vanderbilt Center for Teaching offers a **Certificate in College Teaching**.

The **National Cancer Institute (NCI) Cancer Prevention Fellowship Program (CPEP)** is now accepting applications for Cancer Prevention Fellows. This is a unique postdoctoral training opportunity for scientists and clinicians in the fields of cancer prevention and control.

Struggling to figure out what you want to do for your career? You're not alone! This [short 3 1/2 minute video](#) produced by UCSF captures the essence of the career exploration process.

MODULE ANNOUNCEMENT

The BRET Office of Career Development ASPIRE Program is excited to announce the 2018 ASPIRE Modules, now in its 5th year!

The ASPIRE Modules are short, non-credit bearing electives that broaden the training experiences of biomedical sciences trainees. These skill-based modules are open to any biomedical sciences PhD student or postdoctoral fellow who wishes to take them to supplement their research training. Class size may be limited, however, and will vary by module. For general module questions, refer to the [FAQ page](#).
