eligibility and application requirements. [Your application materials are due September 11 to Kate Stuart.](#)

On September 15 and 22, the [Vanderbilt University Advanced Degree Consulting Club \(VUADCC\)](#) has organized two upcoming webinars with Peter K., a professional case interview coach, to help prepare graduate students with interviews for management consulting firms.

The [2019-2020 ASPIRE Annual Report](#) is here! Check out how the ASPIRE Program served you last year.

[Code for Nashville](#) has a virtual monthly meet-up. If you are interested in technology, data science, non-profits, or policy, check out these great networking opportunities!

Do you want to build a career in global health research? A year of research training in a low- or middle-income country (LMIC) can be foundational for such a career. Applications for the [Vanderbilt-Emory-Cornell-Duke \(VECD\) Fogarty Global Health Fellowship](#) 2021-2022 cohort are now open. This program offers a year-abroad opportunity for US and LMIC postdocs and doctoral students to develop research skills in a global health research setting. Additionally, the [Fulbright-Fogarty Fellowship Program](#) is accepting applications for the 2021-2022 academic year. The Fulbright-Fogarty program specifies countries and engages students in ongoing research projects (applicants do not have to design or propose a project). [Learn more about both and the informational webinar on September 22 via our blog post.](#)

The Black Doctoral Network welcomes current graduate and doctoral students and postdoctoral scholars of all racial backgrounds to participate in their online poster session at the [8th Annual Black Doctoral Network Virtual Conference](#), held on October 29-31, 2020.

WHAT'S THIS?

In order to better assist biomedical graduate students and postdoctoral fellows in making decisions about which of the ASPIRE programs and offerings are most beneficial to them at their current stage of training, we are now “stamping” session titles by training stage: early, mid-late, or all. These stamps apply to both grad students and postdocs. Of course, you are welcome to attend whichever

sessions are of interest, even if it is marked for a different stage, but the guide will help you decide which sessions are most relevant to you *right now*.

[Read more about our staging badges.](#)

INTERNSHIP CORNER

The ASPIRE Program is excited to offer [ASPIRE Internships](#), which are advertised on a rolling basis.

[Small Market/Rural Health Intern American Heart Association](#)

Fall 2020 (Remote, Unpaid, Part-time)

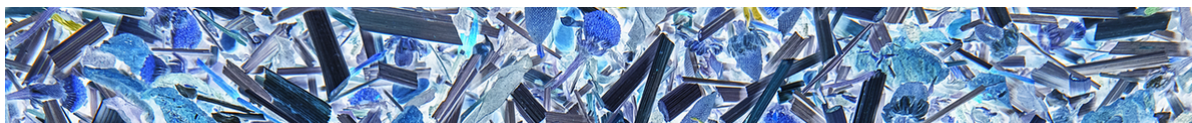

The Small Market/Rural Health Intern will be supervised by American Heart Association's Vice President, Small Market and Rural Health and will assist in driving AHA's health strategies initiatives throughout eight Southeastern states. These initiatives focus strongly on how to drive impact and change toward the AHA's four focus areas of women's

health, nutrition security, tobacco and vaping, and high blood pressure. The AHA teams working on these issues include Communications, Advocacy, Foundations and Community Impact. The Rural Health Intern will work with various staff on these teams as we research, design, and implement specific programs that impact the community that we serve. [Learn more.](#)

Deadline: tomorrow, September 1, noon

NON-ASPIRE PROGRAMS TO ENHANCE YOUR DEVELOPMENT

The ASPIRE program provides many opportunities for career and professional development, but there are numerous other terrific opportunities at Vanderbilt and in Nashville to test your interests and build your skills and network. [This list](#) of potential activities to enhance your career and professional development was originally compiled by VU alumnus Teddy van Opstal, PhD Biological Sciences '18, and we've added to it as we've learned of new developments. Have ideas for the list? [Let us know!](#)
