Office of Biomedical Research Education and Training Presents:

Vanderbilt University Summer Science Academy Seventeenth Annual Research Symposium

Thursday August 1st, 2019

Schedule:

Morning Poster Session: 10:00 AM – 12:00 PM

Student Research Talks: 12:00 PM – 1:00 PM

Afternoon Poster Session: 1:30 PM – 3:30 PM

Student Research Talks: 3:30 PM – 4:30 PM

Award Ceremony: 4:30 PM – 5:00 PM

The Engineering and Science Building,
Vanderbilt University

The Vanderbilt University Summer Science Academy is pleased to present the seventeenth annual Summer Research Symposium.

Vanderbilt University has a longstanding tradition of training undergraduates in the Biomedical Sciences through summer research programs. In 2003, the Office of Biomedical Research Education & Training established the Vanderbilt Summer Science Academy to bring together all undergraduates conducting biomedical research across the university. Currently, there are twenty research programs participating in the academy. Together we host approximately 100 students each summer from institutions across the country.

This symposium serves to showcase the accomplishments and skills that each student obtained while working on their own independent research projects during their 9 weeks at Vanderbilt. The students present their research results in poster format for faculty mentors, fellow students and staff.

Thank you for attending!

Schedule:

Morning Poster Session

Set up: 9:30 AM – 10:00 AM

Presentation: 10:00 AM – 12:00 PM

Take down: 12:00 PM – 1:15 PM

Student Research Talks, 12:00 PM – 1:00 PM

Afternoon Poster Session

Set up: 1:15 PM – 1:30 PM

Presentation: 1:30 PM – 3:30 PM

Take down: 3:30 PM – 5:00 PM

Student Research Talks, 3:30 PM – 4:30 PM

Award Ceremony, 4:30 PM – 5:00 PM

Thursday, August 1st, 2019

Morning Poster Session 10:00 AM – 12:00 PM:

- BP-ENDURE – Blueprint Program for Enhancing Neuroscience Diversity through Undergraduate Research Education Experiences (Pg 7)
- Chemical Biology Research Experience for Undergraduates (Pg 7-8)
- Vanderbilt Summer Diabetes Research Program (Pg 8-9)
- Leadership Alliance (Pg 9-10)
- MCB – Molecular and Cellular Biology Summer Program (Pg 11)
- MSTP SRP – Medical Scientist Training Program Summer Research Program (Pg 12)
- VBISP – Vanderbilt Biomedical Informatics Summer Program (Pg 12-15)
- U-CRIP – Vanderbilt Undergraduate Clinical Research Internship Program (Pg 16-17)
- VUMC Pipeline (Pg 17-18)
- V-SURE – Vanderbilt-Sewanee Undergraduate Research Experience (Pg 19)

Afternoon Poster Session 1:30 PM – 3:30 PM

- AHA SURE – American Heart Association Supporting Undergraduate Research Experience (Pg 19)
- PAECER – Promoting Academic Excellence with Community Engagement and Research Multicultural Scholars (Pg 20-21)
- PRIDE – Vanderbilt University Medical Center Program for LGBTI Health (Pg 21)
- VB STTP – Vascular Biology Short Term Training Program for Minority Students (Pg 22-23)
- VI4 – Vanderbilt Institute of Infection, Immunology, and Inflammation (Pg 23-24)
- VICC-CURE – Vanderbilt-Ingram Cancer Center, Cancer Undergraduate Research Experience (Pg 24-25)
- VVC – Vanderbilt Vaccine Center (Pg 26)
- VINSE – Vanderbilt Institute of Nanoscale Science and Engineering (Pg 28-30)
- Independent Students (Pg 26-28)
- Physics Research Experience for Undergraduates (Pg 30-31)
- Physics Summer Research Interns (Pg 32)

Student Research Talks & Award Ceremony 3:30 PM – 5:00 PM:

- Pg 6

Student Poster and Presentation Index:

- Pg 33

Symposium Location: The Engineering and Science Building

Biomedical Graduate Programs at Vanderbilt University

The **Interdisciplinary Graduate Program (IGP)** is a leading integrative biomedical graduate PhD program, designed to foster well-rounded science leaders. Since its inception in 1992, the IGP has provided comprehensive training for our students, bridging traditional biomedical fields. Our students learn how to be creative and analytical thinkers, geared to tackle the quickly evolving world of research and technology. As a union between 11 participating programs, the IGP provides a strong foundational jumping point for biomedical dissertation work.

medschool.vanderbilt.edu/igp/

The **Quantitative and Chemical Biology (QCB)** program is a PhD track, multidisciplinary program introducing elements of biology to students who wish to pursue a doctoral degree at the interface of the chemical, physical, and biological sciences. The curriculum prepares students for research careers in any area of biomedical research. Many students choose to work in interdisciplinary fields such as chemical biology, structural biology, imaging sciences, molecular and cellular biophysics, or systems biology. Previous didactic training in the biological sciences is not required for entry into the QCB.

medschool.vanderbilt.edu/qcb/

The **Chemistry PhD** program is a PhD track, highly competitive, ACS-accredited graduate program in a collegial atmosphere that nurtures individual goals, fosters innovation and collaboration, and opens doors to a wide variety of professional goals.

The **Medical Scientist Training Program (MSTP)** prepares students for faculty and research positions of leadership in the biomedical sciences. At the heart of our MSTP is the conviction that the approach to problem-solving characteristic of PhD training is the most effective pathway to educate first-rate medical scientists. Our program provides students with an integrated curriculum that features a strong core education in medicine and intensive training in scientific inquiry. Successful completion of the program leads to both the MD and PhD degrees.

The Vanderbilt University School of Medicine Summer Science Academy Research Symposium is supported by the following funding support

- **Vanderbilt Office of Biomedical Research Education and Training**
- National Science Foundation:
 - REU in Chemical Biology
 - REU in Nanoscale Science and Engineering
 - REU in Physics & Astronomy
- National Institute of Health:
 - NHLBI R25, Vascular Biology Short Term Training Program for Minority Students
 - NCI CURE Supplement, the VICC Discover Cancer Research Program for High School and Undergraduate Students
 - NCI U54, Partners in Eliminating Cancer Disparities
 - NHLBI R25, Promoting Academic Excellence with Community Engagement and Reach Multicultural Scholars Program
 - NIH funding to the Vanderbilt Vaccine Center
- Vanderbilt:
