RIDEHAUL SAFETY CHECKLIST

Vanderbilt University Public Safety suggests riders follow these safety guidelines when using a ridehail app like Lyft or Uber...

**REQUEST RIDE IN A SAFE LOCATION**
Request your ride in a safe place such as inside a building or at a VU-designated ridehail pick-up location on campus. Stay inside until you see your ride.

**CONFIRM VEHICLE DETAILS**
Before getting in, check the vehicle make, model, and license plate. Reference any pictures available in the app.

**GREET YOUR DRIVER**
Ask your driver to confirm their name before entering the vehicle. Make sure the driver confirms your name too.

**FOLLOW ALONG**
Buckle up! Ride in the backseat and watch your route in the app as you move towards your destination.

**SHARE YOUR RIDE**
Share your ride and arrival time with friends and family. Some apps allow others to follow your route in real-time.

**KNOW YOUR OPTIONS**
Remember: you can stop or leave your trip at any time if you feel uncomfortable.

**CALL FOR SUPPORT**
If you need assistance, know how to request it through the app or call 911 for emergencies.

**EXIT SAFELY**
Check for vehicles, scooters, bikes, and people before exiting curbside.

For safety issues or concerns, please contact VUPS. For non-emergencies, call 615-322-2745; for emergencies, call 911, or from off campus, call 615-421-1911. publicsafety.vanderbilt.edu
Vanderbilt University Public Safety presents...

VandySafe

**USERS CAN:**

- Contact VUPD via phone call or chat
- Initiate “Virtual Walkhome” for VUPD to monitor your walk
- Submit iReports to VUPD
- Access info about nighttime campus shuttles
- View emergency guides
- And so much more!

**GET HELP**

Pushing the Emergency button will share your location with VUPD and initiate a response.
