

# Dyer's Entry in Autumn

Crowning one of Nashville's tallest peaks, **Dyer Observatory** is a Tennessee treasure listed on the National Register of Historic Places. Our mission is to inspire student and public interest in science and technology through the wonders of astronomy and space exploration. The observatory serves the public with summer camps, teacher workshops, telescope nights, field trips, tours, concerts, and lectures with world-class scientists.

We hope you may join us in the future to learn about the cosmos and appreciate our place in it.
