**Food for Health and Wealth:**
Five Centuries of Cookbooks and Recipes from the History of Medicine Collections
Central Library, Fourth-floor Lobby
Explore 500 years of cookbooks, ranging in date from the 16th to 21st centuries, from Vanderbilt’s History of Medicine Collections. This exhibit details culinary recipes intended to heal the sick, feed a household, establish class or cultural identity. **Our Crowd:**
Student Life at the University of Nashville
Central Library, Second-floor Gallery
This exhibition on early education in Nashville was curated by two undergraduate Buchanan Library Fellows. Modeled after the College of New Jersey, the University of Nashville was designed to create leaders for the region. Students learned by recitation and each minute of their day was highly regimented. After graduation, many alumni went on to become senators, judges and other leaders in the community, becoming a defining legacy of the school.

**Fine Presses, Printers and their Works: Selections from Vanderbilt Libraries**
Central Library, Special Collections Library
Vanderbilt Libraries’ collection of fine bindings showcases modern private press editions and nineteenth-century fine gift books alike. Private press owners redesign classic poetry or other familiar works with new artwork and fine bindings. Modern printer-designers Shirley Jones at Red Hen Press and Gregynog in Wales create works that blend text, type, binding and paper into unique art. This exhibition highlights recent acquisitions and places them in context with other work from the British Isles.
