

Amrutur .V. ANILKUMAR

Curriculum Vitae

Vanderbilt University, 2301 Vanderbilt Place, Nashville TN 37235-1592

e-mail: amrutur.v.anilkumar@vanderbilt.edu

Websites: www.vanderbilt.edu/usli ; www.vanderbilt.edu/lc

I. Education:

- 1983-1988: Ph.D., Mechanical Engineering and Aeronautics
Graduate Aerospace Laboratories,
California Institute of Technology, Pasadena, CA – 91125
- 1982-1983: M.S., Mechanical Engineering
California Institute of Technology, Pasadena, CA – 91125
- 1977-1982: B.Tech. Mechanical Engineering
Indian Institute of Technology, Madras, India – 600-036

II. Leadership:

- 2023-present: Mark Dalton Faculty Director of Experiential Learning in Aerospace Engineering, Vanderbilt University, Nashville, TN 37235, USA
- 2026-present: Chair: AIAA Launch Vehicle and Entry Systems Technical Committee
- 2022-2025: Chair: AIAA Reusable Launch Vehicle Technical Committee
- 2015-present: Professor of the Practice of Aerospace Engineering, Vanderbilt University, USA
- 2014-present: Advisory Guest Professor of Mechanical Engineering, Indian Institute of Technology, Gandhinagar, India
- 2007-present: Professor of the Practice of Mechanical Engineering, Vanderbilt University
- 2021-2022: Chair: Dr. V. Ganesan Faculty Fellow Campaign, IIT Madras, India
- 2022-present: Co-Founder & Benefactor: Accident Critical Care and Analysis Project (ACCA) and the Healthcare Access and Innovation Lab at National Institute of Mental Health and Neurological Sciences (NIMHANS), Bengaluru, India.
- 2017-2018: Chair: Professor V. Ramamurti Faculty Fellow Campaign, IIT Madras, India
- 2013-2020: Founder & Benefactor: Roddam Narasimha Distinguished Seminar Series, IIT Gandhinagar, India
- 2011-present: Director, Vanderbilt-Metro Water Renewable Energy Showcase Facilities
- 1989-2006: Research Professor, Center for Microgravity Research and Applications Vanderbilt University, Nashville, TN 37235
NASA Co-Principal Investigator of Microgravity Fluids Phenomenon on Space Shuttle Missions (USML- I; 1992 and USML- II; 1995) and of Materials Processing Phenomenon on the International Space Station (ISSI, PFMI; 2002-2003).
- 2020-2021: Educational Committee Chair: AIAA Reusable Launch Vehicle Technical Committee

2026-present

Reviewer of Fulbright-Nehru Academic and Professional Excellence Fellowships for United States-India Educational Foundation USIEF in Aerospace Engineering

III. Honors & Awards:

- **Vanderbilt University Chancellor's Cup:** for the greatest intellectual and academic contributions to undergraduate students outside of classroom teaching (2017). The faculty member's contribution "shall be one of educational importance, relevant to the central purpose of the University." Citation: Amrutur Anilkumar has helped make Vanderbilt an aerospace engineering powerhouse even without a formal program; for his dedication to connecting students across disciplines and advising student groups.
- **AIAA Abe Zarem Educator Award:** National Award; American Institute of Aeronautics and Astronautics (2017). Presented to the faculty advisor of the student winner of the Abe Zarem Graduate Award for Distinguished Achievement in Aeronautics or Astronautics; advisor recognized for his/her role in guiding and mentoring the student.
- **AIAA Faculty Advisor of the Year:** National Award; American Institute of Aeronautics & Astronautics, (2016) for passionate promotion of aerospace design activities, community outreach and mentoring of students to success at National Competitions and pursuit of Aerospace Engineering careers.
- **NASA Educational Engagement Awards:** National Awards for best inspiring the study of rocketry and STEM-related topics among younger students and their community (2023, 2021, 2017, 2014, 2012).
- **Faculty Advisor for Northrop Grumman-Orbital-ATK NASA Student Launch National- Championship Teams** for the years 2020, 2019, 2018, 2016, 2015, 2014, 2014, 2013 and National Space Club second place teams of 2026, 2021, 2017.
- **Associate Fellow:** American Institute of Aeronautics and Astronautics, AIAA (2012). Awarded to persons who have accomplished or been in charge of important engineering or scientific work, or who have done original work of outstanding merit, or who have otherwise made outstanding contributions to the arts, sciences, or technology of aeronautics or astronautics.
- **AIAA Special Awards:** for designing and executing a comprehensive STEM educational outreach program involving Aerospace Engineering, for sustained and outstanding achievement in Aerospace Engineering, for outstanding mentoring to Aerospace Club (2014, 2012, and 2010).
- **2012 EPA P3 Award** (People, Prosperity, and the Planet): for the quality and design of bio-hybrid solar cells.

- **Paladin Capital Marketplace Innovation Award** (@ EPA's American Innovation for Sustainability Forum in Washington, DC), for the design of the bio-hybrid solar cells.
- **AIAA Faculty Booster Award** for steadfast commitment and outstanding leadership as the faculty advisor of the Vanderbilt University AIAA Chapter (2008).
- **Vanderbilt University School of Engineering Award for Excellence in Teaching** (2007). Award presented by the Dean of Engineering to a member of the VUSE faculty who has made significant contribution to excellence in undergraduate or graduate instruction during the past year. Factors considered are high teaching ratings, course materials, effective innovations in instruction, positive influence on outreach within and external to VUSE, curriculum value, and collaboration with faculty members outside VUSE.
- **NASA Public Service Group Achievement Awards** for outstanding support to the Space Shuttle mission operations (1996), and for outstanding support to the PFMI investigation aboard the International Space Station (2002).
- **NASA certificates** in recognition of outstanding contribution to success of USML-1(STS –50; 1992) & USML-2 (STS-73; 1995) Space Shuttle Missions and the PFMI investigations aboard the International Space Station (ISS; 2004).
- **Member Alpha Sigma Mu:** International Professional Honor Society for Materials Science and Engineering.

IV. **Space Science and Energy Research & Development:**

- **Reusable Launch Vehicles:** Design, Structural Health Monitoring and Flight Load Analysis
- **Space Flight Applications:** Development of Experimental Payloads for Spaceflight.
- **Rocket Propulsion:** Flight Dynamics and Control, Reaction Control and Monopropellant Thrusters
- **Energy and Expert Systems:** Off-Terrain Vehicle Lubrication Quality Sensing, Wind Turbines
- **Fluid Physics:** Drop and Bubble Dynamics, Bio-Encapsulation, Directional Solidification

V. Patents:

- A Novel Reactor for Making Uniform Capsules,' US Patent 6,001,312 (12/1999), with I. Lacik and T.G. Wang.
- An Encapsulation System for the Immunoisolation of Living Cells,' US Patent 5,997,900 (12/1999), with T.G. Wang, I. Lacik, M. Brissova, and A.C. Powers.

VI. Current Funding:

- GE Dalton Directorship in Aerospace Studies
2/2023-2/2032; \$ 1 million.
- Wind & Solar Power generation Installation at Love Circle
1/2011-6/2026 ; \$124,500

VII. Peer-Reviewed Journal Publications:

XII. Aerospace Design Laboratory Graduate Student Advisees and Career Placement:

Jayantha Bhowmick	MS 2001	Schlumberger
Matthew Cox	MS 2005	Holland & Knight LLP
Qiang Deng	PhD 2006	Hilti Energy Group
Brien Blandford	MS 2007	Databricks
Chris Lyne	MS 2017	Exoterra Resources
Adam Smith	MS 2022	Blue Origin
Cameron Schepner	MS 2023	Space X
Thomas Colicci	MS 2024	Anduril
Andrew Noonan	MS 2025	Anduril
Jonathan Zak	MS 2026	Space X

XIII. Engineering and Outreach Benefactory Activities in India:**2026: Nanjangud G. Viswanath Swabhanu Leadership Chair at IIT Madras**

Professor Anilkumar has set up the Chair in honor of his maternal uncle, the late Nanjangud G Viswanath. The Leadership Chair aims to recognize current IITM faculty, regardless of age or rank, who have a unique strategic plan and an implementable vision to quickly propel the institute towards earning its rightful place among the world's most impactful engineering schools of the 21st century, while focusing on the areas of national security, healthcare, artificial intelligence, workforce development, research innovation and commercialization, and promoting upward societal mobility or equivalent efforts.

Current Chair Occupant: Professor Prabhu Rajagopal: Director IIT Madras Zanzibar Campus <https://cystar.iitm.ac.in/prabhu-rajagopal-inner-people/>

2021: Smt. Amba and Sri V. S. Sastry Chair at IIT Gandhinagar

Professor A V Anilkumar of Vanderbilt University and a well-wisher of the Institute has established the 'Smt Amba and Sri V S Sastry Chair', in honor of Professor Anilkumar's parents. Smt. Amba and Sri V S Sastry Chair at IIT Gandhinagar will support faculty members in all areas of engineering or natural sciences.

Current Chair Occupant: Dr. Neeldhara Misra
<https://www.neeldhara.com/>

2022: Dr. V. Ganesan Faculty Fellow Chair at IIT Madras**2018: Dr. V. Ramamurti Faculty Fellow Chair at IIT Madras**

With a vision to support excellence in Mechanical Sciences and Engineering at IIT Madras, Professor Anilkumar embarked on two successful faculty fellow campaigns in Y 2022 and Y 2018. This culminated in setting up the Dr. V. Ganesan Faculty Fellow Chair in the field of Thermal and Fluid Sciences and Engineering and the Dr. V. Ramamurti Faculty Fellow Chair in Dynamics and Control Engineering.

Emerging Faculty Fellow Stars will be selected by an application process and titled for a period of five years; emerging stars can hail from any of the Departments of Mechanical Engineering, Applied Mechanics, Aeronautical Engineering or Physics. They have to have demonstrated excellence and promise in research with a global footprint, in industrial consultancy, and in teaching and mentoring of undergraduates.

Current Faculty Fellow Occupants:

Dr. Pallabh Sinha Mahapatra <https://home.iitm.ac.in/pallab/about.html>

Dr. Shaikh Faruque Ali: <https://home.iitm.ac.in/sfali/>

2012-2019:

Roddam Narasimha Distinguished Seminars Arranged at the Indian Institute of Technology Gandhinagar, India, as Chairman of the Organization Panel.

The Roddam Narasimha Distinguished Seminar Series was set up and conducted, at the Indian Institute of Technology Gandhinagar between 2012 - 2019, by Professor Amrutur Anilkumar to honor his mentor, the Eminent Aerospace Scientist and Engineer, Professor Roddam Narasimha. It served as a forum for Distinguished Professionals to present their work in a topical area of National Importance. Seminars were conducted in the fields of Energy, National Security, Space, Materials Science, and Data Science. The details of the Distinguished Seminar Series can be found here.

1. Inauguration: Green Airplanes from Concept to Product
Roddam Narasimha, November 19, 2012, IIT Gandhinagar
2. Dr. Maureen McCann, Director Purdue University NEPTUNE Center for Power, and Energy (currently Center Director at National Renewable Energy Laboratory, NREL)
16th April 2013.
The Biomass to Biofuels Pipeline: An Engineering Paradigm for National Security and a Sustainable Carbon Economy.
3. Dr. John O. Dabiri, Centennial Chair Professor, California Institute of Technology
31st January, 2014
Bio-inspired Wind Energy: From Fish Schools and Seagrass to Better Wind Farms
4. Dr. Sang Il Seok, Professor, Korea Institute of Science & Technology
13th April 2015
Architecture, Process and Materials for Efficient Inorganic-Organic Hybrid Solar Cells
5. Dr. Milind Tambe (John McCarthy Award, ACM SIGART Award Winner)
Gordon McKay Professor of Computer Science and Director of Center for Research on Computation and Society, Harvard University
10th August 2015
Towards a Science of Security Games: Key Algorithmic Principles, Deployed Applications and Research Challenges
6. Mr. A. S. Kiran Kumar (Vasvik Award, Bhaskara Award Winner)
Chairman, Indian Space Research Organization
10th August 2016
Space Technology – Contribution to India's Development
7. Prof. T. Pradeep (Bhatnagar Prize, Eni Prize Winner)

Institute Professor of Chemistry, Indian Institute of Technology, Madras;
6th June 2017

Clean water using advanced materials: Science, Incubation, and Industry

8. Prof. B. S. Murty (Bhatnagar Prize Winner)
Director, Indian Institute of Technology, Hyderabad
13th August 2018

Role of Advanced Materials in Transforming India into a Global Leader

9. Jayant Haritsa (Infosys Prize, Bhatnagar Prize winner)
Professor of Computer Science, Indian Institute of Science
5th August 2019: *Data Science: The Good, The Bad and the Ugly*

2025-2027

Accident Critical Care and Analysis Project (ACCA) and the Healthcare Access and Innovation Lab (HAIL) at National Institute of Mental Health and Neurological Sciences (NIMHANS), Bengaluru, India

ACCA Project: primary goal is working with physicians and neurosurgeons at NIMHANS to analyze data related to road traffic accidents in Bangalore and surrounding areas. Develop data related to patient injuries, patient transport, and provision of critical care within the golden hour post trauma. Provide statistical and implementable feedback to the Government to help develop a robust critical trauma care network of hospitals along with ambulatory services for patient transport within the golden hour accident so as to improve outcomes in such events.

HAIL Project: primary goal is to decentralize neurological care by training primary healthcare doctors and nurses to diagnose and manage common brain disorders at the grassroots level.

XIV. AIAA Seminars Arranged as Chairman Reusable Launch Vehicle Technical Committee.

1. Fiber-Optic Sensing and Applications to Reusable Launch Vehicles
Patrick Chan, PhD, NASA Armstrong Flight Research Center
Tuesday March 8, 2022.
2. Reusability in the New Space Revolution
Zachary Friedman, RLV TC Member
Vanderbilt University.
Tuesday April 12, 2022.
3. Burn-Resistant Materials for High-Performance Reusable Rocket Engines
Zachary Cordero, Boeing Assistant Professor
Department of Aeronautics and Astronautics, Massachusetts Institute of Technology
Tuesday July 12, 2022.
4. Mission Assurance for Reusable Launch Vehicles
Vinay Goyal, Technical Fellow Aerospace Corporation
Tuesday September 13, 2022.
5. In-Space Manufacturing, an RLV Enabled Technology
Jordan Croom, Varda Space
Wednesday March 22, 2023.

6. Dream Chaser Mission to Space Station
Sara Tsai, Sierra Space
Wednesday May 10, 2023.
7. Capturing Mechanics in Extreme Environments: From High-speed Flight to Planetary Exploration
Seetha Raghavan, Ph.D.
Professor of Aerospace Engineering and Associate Dean of Research & Graduate Studies, Embry-Riddle Aeronautical University; Tuesday August 29, 2023
8. A Reliability-Based Damage Tolerance Method for Reusable Launch and Space Vehicle Hardware
Leland Shimizu
Senior Engineer, Aerospace Corporation
Tuesday Nov 14, 2023
9. Health Monitoring of Composite Aerospace Structures with Embedded Fiber Bragg Grating Sensors
Brayden Aller, Graduate Student Caltech
Tuesday July 30th, 2024
10. Structural Health Monitoring for Launch Vehicle Reusability Using Fiber Bragg Grating Written Optical Fibers
Thomas Colicci, MS Graduate Student
Tuesday April 2, 2024
