

eFlex Pass

Step 1: Place your barcode and/or QR code eFlex Pass in the barcode scanner on entrance.

PLEASE NOTE:

The QR code can be sent via email.

Each parker will need to have the QR code on a phone or printed on paper prior to entering the garage.

At entry, scan the code (see step 1). Parker should NOT pull a white ticket.

If there is a parking attendant at the gate requesting payment to enter the garage, parker will need to show the QR code to the attendant for entry.

At exit, parker should scan the QR code to raise the gate. If the gate is already raised to allow vehicles to exit more efficiently, parker should not stop to scan the QR code.

Step 2: Machine will process barcode and/or QR code and if approved, will open the gate for entry.

Step 3: Place your barcode and/or QR code eFlex Pass in the barcode scanner on exit.

Step 4: Machine will process barcode and/or QR code and if approved, will open the gate for exit. If NOT APPROVED, vehicle will be required to pay the maximum daily rate.

QR code may be presented electronically or print.
